Red Plan For Europe Outlined

MOSCOW, Oct. 22.—(AP)—Andrei Zhdanov, member of the Communist party central committee, told the nine countries represented at the recent Poland conference that Russia could co-operate with capitalistic European powers indefinitely on the basis of "reciprocity and mutual fulfilment of obligations."

CONCERNING Russian policy on the Marshall plan to aid Europe, Zhdanov said: "The USSR will put out all efforts in seeing that the Marshall plan is not realized."

Zhdanov, an outstanding member of the Politburo (political bureau of the central committee), laid down a blueprint for Europe in which he called for co-operation of European countries regardless of systems of government, and urged Communist parties to fight "against United States imperialism."

Zhdanov said all European powers now affiliated with the Marshall plan needed to do was to show steadfastness in "opposing American slave-loan conditions" and Americans would be faced with an economic crisis stemming from lack of demand abroad for their production.

HIS BLUEPRINT for Europe:

1. Co-operation among European powers regardless of their systems of government.
2. Development of trade among European countries on a reciprocal basis through treaties similar to those evolved for Eastern Europe.
3. Adoption of a united front against attempts of the United States to impose "slave conditions."
4. The Communist parties should push this program to fight "against United States imperialism," but be willing to co-operate with any others who support the program.

26 Candidates Likely to Run

A total of 26 candidates appear likely to be nominated for the mayoralty, aldermanic and public and separate school board for the Nov. 5 election, according to information available Wednesday.

Nominations must be filed at the council chamber, Civic Block, on Monday next between 11 a.m. and noon, and candidates are urged by George S. Docherty, city clerk, to take out their nomination papers as soon as possible. He reminds all candidates that the Civic Block will not open on Saturday.

At present it would appear to be a contest between Mayor Harry Ainlay and Fred J. Speed for the mayoralty. Mr. Speed is at present visiting on the Pacific coast, but stated prior to leaving for Victoria that he would return in time to file his nomination papers.

There are 12 prospective candidates for the aldermanic board, five each nominated by the CDA and the Citizens' Committee. Two independents also have taken out nomination papers.

Seven candidates are now nominated for the public school board, four by the Citizens' Committee and three by the CDA. It is expected that a fourth candidate will be nominated by the latter organization.

Four retiring members of the separate school board will seek re-election, and it is understood they will be accorded acclamations.

Communist Threats, de Gaulle's Victory Cause

Government of France Resigns in Crisis

By James F. McGlincy

PARIS, Oct. 22.—(BUP)—The government of Socialist Premier Paul Ramadier, pressed by Communist threats of continuing strikes and weakened by Gen. Charles de Gaulle's victory in Sunday's municipal elections, decided unanimously tonight to resign.

AFTER A CABINET meeting late this afternoon, the ministers announced that they were placing their portfolios at the disposal of Ramadier as head of the coalition government.

The surprise decision followed a meeting of the full council of ministers under President Vincent Auriol this morning at which it was decided to call a special session of the French parliament Oct. 28.

At the end of the afternoon meeting, Pierre Bourdan, of the information ministry, told newsmen the entire cabinet had handed its collective resignation to Ramadier.

GOVERNMENT sources indicated that move was designed to enable Ramadier to reorganize his cabinet. It was believed the Popular Republicans (MRP), chief victims of the Sunday elections, probably would not be included in the new government, but would support Ramadier in the assembly.

Ramadier already had summoned an emergency session of the assem-

Hunter Killed Near Smoky Lake

Fred Prytula, 44-year-old business man of Smoky Lake was wounded fatally by his own gun, while out duck hunting Tuesday morning near a creek one mile north of Smoky Lake, it was learned here this morning.

The accident occured on a small bridge over the creek and was dicovered by a workman on his way into town. As the workman approached the bridge he heard a shot and then saw the body of Prytula lying on the bridge. Without stopping, the man continued into town and reported the accident to Cpl. M. F. Cumming, RCMP, who investigated immediately.

It was thought that Prytula was standing on the bridge holding the gun in front of him and possibly tapping the butt on the planking when it discharged, sending the full force of the shot into his throat. The gun he had been using was an old double-barrelled shotgun and it was found at the inquest that it would discharge very easily.

Prytula owned and operated a dry-cleaning and tailor shop in Smoky Lake. He was well known throughout the district, having moved there from Vegreville in 1933. He has no known relatives in Canada.

Double Birdie

PHILADELPHIA, Oct. 22. — (AP) — Councilman George D. Mansfield holds a scoring record for golf—two birdies in one hole.

Mansfield was playing No. 9 yesterday when his approach shot struck a bird flying across the green. The bird and the ball dropped dead to the pin.

Mansfield putted the ball in for a birdie three.

Expects North Road Completed in 1948

Completion of the Alberta section of the Grimshaw-Great Slave Lake road by the middle of next summer and of the Dominion government's portion of the road north from the provincial boundary by next fall, was predicted Wednesday by Hon. W. A. Fallow, minister of public works.

It had been hoped, Mr. Fallow said, that the Alberta part of the road would have been completed by now, but road crews found that a 30 mile section of the proposed road presented unexpected difficulties. Surface of the ground on this portion of the road gave the appearance of level prairie land and it had been hoped that crews would be able to make extra good time there.

However, it had been found that sub-surface conditions were distinctly unfavorable with large rocks and boulders blocking all efforts to gain time. It was necessary to ship new machinery to the site of the road work. This represents an increase in the cost of the road.

Construction has now reached 30 miles beyond Hay River, Mr. Fallow said, but crews are now working on sections of the road further north where muskeg conditions might delay road-building next spring.

MYSTERY SHOOTING

NEW YORK, Oct. 22.—(AP)—A tall man casually strolled up to a group chatting on a Greenwich village stoop shortly before midnight last night, drew a gun, fired a number of shots at them, and then casually strolled away leaving two dead and two others wounded. Police said the shooting was a complete mystery.

Gas Takes Life Of Bowness Man

CALGARY, Oct. 22.—(CP)—Natural gas, believed to have been leaking from a defective stove, took the life yesterday of George Tabraham, 72, and sent his 73-year-old wife to hospital after the couple had been overcome by the fumes while sitting together in their home at Bowness, 10 miles west of here.

Mrs. Tabraham was unconscious when rushed to hospital by ambulance shortly after 3 p.m. Attending physicians held out hope last night that she would survive.

Authorities investigating the gassing said, "it appears to be a case of pure accident."

The couple were found by a bakery deliveryman and a next-door neighbor, who investigated when there was no reply to knocks on the door.

Both Tabrahams were fully clothed and were sitting up on a chesterfield in their combination living room and kitchen. Mrs. Tabraham was slumped against her husband's shoulder.

Candidates Are Selected

Edmonton Citizens' Committee, at a public meeting held Tuesday night at Waterloo Motors building, 107 street and Jasper avenue, and attended by 60 members, decided not to nominate a candidate for the mayoralty, but nominated complete slates for the aldermanic and public school board.

NOMINATED FOR the aldermanic board were Ald. James M. Douglas, Ald. C. E. Gariepy, KC,

(In the acompanying layout aldermanic candidates are in the upper row, and school board in the lower).

and Ald. H. E. Tanner, all retiring this year. Also nominated were: F. Armour Ford, KC, barrister, and George E. Gleave, Dominion civil servant and executive officer of the Canadian Legion, both newcomers to the aldermanic field, although Mr. Ford has been a public school trustee for the last two years.

For the public school board the committee nominated Mrs. F. C. Butterworth, whose two-year term expires this year; Dr. G. H. Brown, dentist; Stewart Graham, optician, and William G. Morrow, barrister, all newcomers to municipal politics.

Aldermen Douglas and Tanner were designated as the committee's South Side candidates for

Seeking Solution Threatened Strike

MONTREAL, Oct. 22.—(CP)—Meeting behind closed doors in what one official described as the "big" session to find a solution to the threatened nation-wide rail strike, representatives of the Canadian National and Canadian Pacific Railways were again around the conference table late today with representatives of 17 railway brotherhoods who demand two weeks' annual holiday with pay.

The company-union meetings started yesterday, when they were adjourned without any announcement on progress, following the unions' notice that a strike would start Nov. 3 if the union demand was not met.

Freight Assistance Policy Maintained

OTTAWA, Oct. 22.—(CP)—The government last night took another stride towards complete decontrol, eliminating price ceilings on meat and meat products, on oats, barley and screenings. Subsidies too, on grain used for livestock feeding will be discontinued.

The action, forecast exclusively by The Edmonton Bulletin on Saturday, effective today, thus narrowed the field of restricted items to a handful of essentials such as rents, sugar, fats, oils, wheat, flaxseed, rapeseed and sunflower seed.

The decontrol order, announced jointly by Finance Minister Abbott and Agriculture Minister Gardiner, said that the feed grain freight assistance policy will be maintained until the end of the current crop year, July 31, 1948. This will facilitate the movement of feed grain from Western Canada to Eastern Canada where there was a small crop this year.

IN A MAJOR decontrol order a month ago, External Affairs Minister St. Laurent said commodities still under control would be decontrolled "at appropriate times, the general test being when supply conditions and prospects justify the expectations that no excessive or disorderly price increases will occur."

But he emphasized that rent and eviction controls may be expected to outlive all other controls. Other sources, however, predicted sugar controls would be removed by the year-end.

Officials were hesitant to express an opinion regarding increases in price as result of lifting the ceilings on meat. One source said that there might be an immediate increase in meat products which likely would be eliminated as soon as the packinghouse strike ends and supplies reach markets.

Statue Unveiled To King George V

By JAMES McCOOK

LONDON, Oct. 22.—(CP)—The King today unveiled a white statue to his father, King George V, beside Westminster Abbey.

Accompanied by Queen Mary, widow of the late king, Queen Elizabeth, Princess Elizabeth and Princess Margaret, the King said that his father for 25 years shared with his people "their hopes and disappointments, their happiness and their sorrows."

His reign was "full of danger and difficulty which convulsions of our own day have perhaps temporarily obscured.

"During these years his qualities of courage, faith and steadfastness grew even more strong and he won for himself what he most desired—the confidences and love of his subjects all over the world."

Tear Gas Used On Chile Strikers

SANTIAGO, Oct. 22.—(AP)—A Chilean government spokesman said last night that troops used tear gas to drive more than 2,000 sit-down strikers yesterday from the Schwager coal mine in southern Chile. The sit-downs followed a recent 13-day strike of some 16,000 Chilean miners demanding higher wages. The government, which said this walkout was Communist instigated, claimed last Friday to have broken it.

Britain Wants Draw on Loan

LONDON, Oct. 22.—(AP)—The Press Association said today that Britain has told the United States she wants to begin drawing "as soon as possible" on the frozen $400,000,000 balance of her American loan, one of the country's last sources of dollars.

A treasury spokesman declined to confirm or deny the report. A highly-placed government source, close to Prime Minister Attlee, said he had no information to indicate the report was true.

(Reuters News Agency, however, quoted "well - informed London quarters" as saying the report was a "pretty accurate all-American leak.")

An unofficial informant said it is probable that Britain has made "some new approach" to the United States regarding the balance. He suggested that Britain has "built up a case" for releasing the loan without specifically asking immediate action.

More Workers Vote Return to Jobs

While formal announcement was awaited, it was reported Wednesday that 700 employes on strike at Burns and Co. Ltd., and Canada Packers Ltd., plants here voted Tuesday night to accept the settlement formula and return to work.

Ont Tuesday, striking employes at the Swift Canadian Co. Ltd., and Gainers Ltd. plants returned to work in the plants. They number around 800.

Meantime, preparations are being made in anticipation of the other two plants reopening within a few days.

Livestock is starting to move to Edmonton plants now in operation in steadily increasing volume, it was reported Wednesday.

Action on the decision at the Tuesday night meeting is expected to follow reports on the results being forwarded to headquarters.

France Dips Into Her Gold Reserves

WASHINGTON, Oct. 22.—(AP)—Crisis-ridden France was said today to have sold $1,500,000,000 worth of her gold reserves in the last three years in a frantic effort to pay for food, fuel and raw material imports.

French embassy officials who disclosed this privately said the result has been to leave their country with reserves of only $455,000,000 plus an undisclosed "but much smaller amount" set aside in a stabilization fund designed to maintain the value of the franc in world trade.

In 1939 France was Europe's biggest gold holder with a $2,709,000,000 hoard.

Information on rock formations and their indications continues to be closely guarded as drilling bits bite deeper to new record depths in outlying wildcat wells, testing new areas since the February discovery of the new Edmonton oil fields.

Approaching some of the depths of wells surrounding the Turner Valley field, Imperial's Paddle River No. 1 so far holds the depth record at 8,434 feet.

Asked how much deeper it might be drilled, an Imperial official Wednesday said he was unable to comment other than that it now was over the depth of the drilling rig's top efficiency capacity. Drilling was continuing but diameter of

Action Planned Against Pickets

By The Canadian Press

Move by one union to prevent pickets from another interferring with activities of its members, was a reported development in a strike of 2,800 street railway men against the British Columbia Electric Company, according to Canadian Press dispatches from Vancouver.

A SPOKESMAN for the company announced he had been informed that the Brotherhood of Locomotive Engineers was applying to its international headquarters for permission to institute injunction proceedings. The step followed action by strike pickets which prevented interurban trams operated by the brotherhood from leaving their barns on scheduled runs.

Jack Koffman, locomotive engineers' chairman, would neither confirm nor deny the report.

Craft Sinks in Harbor

Fear Four Are Killed As U.S. Plane Crashes

ARGENTIA, Nfld., Oct. 22. — (CP) — Four men are missing and presumed dead and four injured as the result of the crash of a United States naval plane at this huge American base in southern Newfoundland last night.

The plane, on a routine flight from Goose Bay, Labrador, carried eight U.S. naval personnel. The four survivors are suffering from injuries and shock. None of the names was released pending notification of next-of-kin.

Search for the four missing men is continuing today.

The aircraft, the Privateer PB4Y2, was attempting a landing by instruments in soupy weather when she struck and catapulted into the water. The plane sank in about 10 fathoms. Cause of the crash has not been determined.

Flares Reported Seen at Night

Probe New Clue in Plane Search

PENTICTON, B.C., Oct. 22.—(CP)—A new clue, which raised hopes that some of the nine persons aboard a missing RCAF photographic plane were still alive, today heartened searchers as RCAF, United States and private aircraft took off shortly after dawn in the fourth day of the hunt. The air force plane has been missing since noon Saturday.

THE NEW LEAD was a report from Arrow Lakes, northwest of here, that an orange flare had been seen arcing across the sky late last night.

Searchers were also planning to make another check, a few miles south of this area, at Lemon Creek where three loggers reported hearing a "crash and explosion" at the approximate time the plane was reported missing last Saturday.

In the same vicinity, British Columbia provincial police said a fire had been seen burning on Slocan Ridge and forestry officials prepared to make the long climb up the mountain side to investigate.

MOST OF THE reports reaching search headquarters here were centred about Crescent Valley. The last word received from the Mitchell bomber, of a flight from

Big Forest Fire Takes Heavy Toll

GOOSE ROCKS BEACH, Me., Oct. 22.—(AP)—A terrifying forest fire consumed almost 200 buildings along a five-mile stretch of picturesque Maine coastline before it was brought under control early today.

Most of the razed structures were summer cottages, but there were scores of homeless families in the Goose Rocks, Cape Porpoise and Wildes districts of Kennebunkport.

Kennebunkport village, with 2,000 residents, was spared, and diminishing winds and effective backfiring stemmed the advance of the fire—the most serious of 40 burning in Maine's long-parched forest lands.

Farmers in the path of the flames moved livestock and carried household equipment into the village of Kennebunkport for storage in garages and other business establishments.

At least 5,000 firefighters and volunteers tried to keep the flames from racing into the village.

With nearly another 100 homes and cottages lost in other parts of the state, Forest Commissioner Raymond Rendall estimated the loss at more than $3,000,000.

Missing Plane

(Continued from Page 1)

Calgary to Penticton, was a call to the Crescent Valley radio station at 11:44 a.m. Saturday requesting a report on weather conditions at Penticton.

Search officials said the bomber was flying at 18,000 feet when it last reported, to avoid a layer of sleet. They considered it possible the bomber crashed onto a rocky slope when it attempted to come down on Penticton through the icy strip.

MEANWHILE THE U.S. with two army B-29's, two navy four-engined aircraft, one coast guard amphibian and five communication trucks—pressed the search on a 50-mile front along the border.

Aircraft stayed aloft for eight-hour stints, continually checking back for new areas to cover, new leads to follow but the most persevering workers were the five remaining members of the original photographic unit.

All LAC's acted as "eyes" aboard aircraft, and did speedy refueling chores and serviced aircraft from dawn to dark.

The five are the buddies of the missing bomber crew of seven and friends of the two missing civilians, Mr. and Mrs. Fred Knight. They are also the remaining members of No. 413 photograhpic squadron.

The 12 man party was one of a score used by the RCAF for photographic work throughout the west this summer. They came here early in April and while staying at the Incola hotel became friends of the manager Mr. Knight and his wife.

The five LAC's are D. M. Babcock, Amherst, N.S., A. R. Coutts, Seaforth, Ont.; Don Nicholls, Vancouver; Al. Holts, Winnipeg and Len McHale, Douglas, Ont.

Social Credit Caucus Thursday

Social Credit members of the Legislature were arriving in Edmonton Wednesday to attend the caucus of government members being held in the government buildings Thursday and Friday. Among early arrivals were Hon. Peter Dawson, speaker of the assembly, James Hartley (SC Macleod) deputy speaker, and Gordon Taylor (SC Drumheller) government whip.

Special cabinet meetings were held this week in preparation for the caucus, which some observers predicted would be one of the most important party sessions in many years.

Fate of the Social Credit board, the government's proposed aerial immigration scheme from Britain and consideration of new Social Credit legislation to replace the Alberta Bill of Rights, declared by the Privy Council to be ultra vires, are said to be some of the subjects to be discussed by the meeting of government members.

Predictions that members would be asked to consider a further advance of $250,000 toward completion of the Bitumont pilot plant, experimenting with the extraction of petroleum from Alberta's tar sands were discounted by Hon. W. A. Fallow, minister of public works.

the aldermanic board, and Mrs. Butterworth and Mr. Morrow as the south side candidates for the public school board.

Opening the meeting J. A. Christiansen, chairman of the committee, stated its sole purpose since inception was the task of seeking prominent men and women to enter municipal politics and to support them in elections. The committee's success in the past, he said, was sufficient reason for its existence and continued efforts now and in the future.

AFTER EACH election, he added, the committee ceases to function, and is revived annually at a public meeting. The Citizens' Committee never dictates public policy to the candidates it sponsors either before or after election. The candidates who are elected with its support must answer to the citizens as a whole; they have no responsibility to any small group of citizens, Mr. Christiansen said.

Mr. Christiansen stated it was regrettable indeed that men of ability will not offer themselves for such an important public service as mayor of the city. There are men who could be elected with ease, he added, but they are not interested. It was different in seeking candidates for the aldermanic and public school boards because the candidates could attend to their several businesses while serving on these boards.

Carl E. Berg, vice-president of the Trades and Labor Congress and prominent city labor leader, recalled formation of the committee 10 years ago. He said it was a venture that had resulted in bringing good civic government to Edmonton, adding that advancements made in the city could be attributed to the sound administration given by committee aldermen and school trustees. He said that all sections of the city's population had been fairly dealt with, and that labor had no complaints.

It was announced that Frank Booth will be campaign director, and Charles Payne campaign manager. Campaign offices have been opened in the Bank of Toronto building on 100A Street immediately north of Jasper avenue.

acting in "Song of Russia" because he considered it "Communist propaganda."

This is the film which the committee has charged was made at the insistence of Lowell Mellett, former aide to the late President Roosevelt and now a newspaper columnist. Mellett has denied that he brought any pressure on Taylor to act in it.

TAYLOR SAID that if he ever gave any one the impression he was forced to make the film, that was not true.

"I would say I was not forced," he said.

Committee Chairman J. Parnell Thomas, (R., N.J.), had to ask the actor to speak louder on occasion because of the surf-like murmurs among female Taylor fans—old and young—in the jammed room.

Earlier Chairman Thomas said that the house committee on un-American activities has "a very complete record on at least 79" Hollywood personalities who have engated in subversive activities.

He did not name names but said "documented evidence" will be offered during the hearings of these 79.

Testimony of Actor Adolphe Menjou led off yesterday's session. Heard after Menjou were Writer-critic John C. Moffit, who described a group of writers and studio workers as Communists of "party-liners" and author-playwright Rupert Hughes, who said movie producers themselves have been "unjustifiably lax" in supporting with big salaries men "they know to be Communists."

MOFFITT DECLARED that Chalmers (Slick) Goodlin, former test pilot for the United States air force's supersonic experimental plane the XD-1, was tricked into disclosing its secrets in an article which a Hollywood agent sent to Communist headquarters in New York.

He said the Federal Bureau of Ivestigation is investigating.

The F.B.I. declined any comment.

MEANWHILE Senator Claude Pepper (Dem.-Fla.) advised 19 unwilling witnesses who are under subpoena for next week's sessions to "stand on constitutional immunity" and refuse to answer questions which indicate the committee is "trying to censor anyone's thinking or speech."

U.N. Settles Issue

Defeat Soviet Bloc In Vote on Balkans

By Ross Munro

NEW YORK, Oct. 22. —(CP)— The United Nations general assembly yesterday finally dealt with the stormy Balkan question, which has plagued it since this session opened five weeks ago, by deciding by a vote of 40 against the Soviet bloc of six to establish an 11-member UN commission to watch over the Balkans.

ELEVEN NATIONS abstained in the vote taken at the end of the second day of plenary sessions and although Russia and Poland were elected to the commission they repeated that they would boycott it.

But the UN secretary nevertheless launched its plans to create the commission which is scheduled to function within a month, with its other members the United States, Britain, France, China, Australia, Brazil, Mexico, The Netherlands and Pakistan.

Meanwhile, in a counter-move against Russia's bitter campaign against "war-mongering", Australia's Dr Herbert Evatt called on the assembly to condemn propaganda which "falsely" accuses national officials and other responsible persons of this "war-mongering."

IN TWO OTHER developments at Flushing Meadow, the Western Powers voted down two Eastern European proposals aimed at reducing the influence of the U.S. and Britain in Greece:

1. The assembly rejected a Polish resolution demanding immediate recall of all foreign military personnel and missions in Greece.

This was aimed at the United States and Britain and the vote was 34 to 7, with Egypt voting with the Slav bloc of six. The Egyptian vote quickly recalled that Egypt has a demand pending in the Security Council for immediate withdrawal of British troops from her territory.

2. The assembly rejected, by a vote of 41 to 6, a Soviet resolution calling for withdrawal of foreign troops from Greece and for establishing a commission to supervise economic aid.

At the UN's other headquarters at Lake Success, the assembly's special committee on Palestine became tangled with involved debate on how to tackle the batch of proposals for and against partition of Palestine into Jewish and Arab countries. The committee made practically no progress.

Govt. Quits

bly for next Tuesday to ask for a vote of confidence.

THE CONFEDERATION of Labor, having settled the eight-day Paris subway and bus strike last night with a 15 to 20 per cent raise for 33,000 workers, presented the government with a new list of demands, the main one of which was for a 57 per cent increase in the national minimum wage.

De Gaulle's rally, which showed itself to be the strongest political group in the nation in Sunday's municipal elections, was not represented in the assembly because it was organized after the last assembly elections.

But it felt it ought to have representation and some of de Gaulle's supporters were trying to enlist members of various parties in the assembly in an "intergroup for true democracy." Members of this group would keep their present party membership and those trying to organize it said it could get 100 to 150 deputies to join.

A GOVERNMENT spokesman said today there was no question at the moment of any changes in the coalition cabinet. If Ramadier failed to win a vote of confidence, it could open the way for de Gaulle to get elected to power.

If Ramadier fails to win, his government will have to resign. Two such crises are necessary for a national election in 1948 to elect a new assembly, one of the ways de Gaulle could return to the premiership.

piping had been reduced from nine to four and a half inches in order to lighten the burden.

Muskeg, 70 miles into the foothills hinterland near Entrance, has been under operation for more than six months. At a cost expected to reach $1,000,000 this well is being drilled jointly by Imperial, Shell, McColl-Frontenac, Socony-Vacuum and Canadian Gulf. The 70-mile stretch of roadway first had to be built before equipment could be moved into the exploratory site. This in itself was an extremely costly operation. The drill Wednesday was at 7,233 feet and in hard sand. No other information was available on logging of the well.

Wednesday's Imperial report: Battle Lake, still at 6,765 feet attempting to grind out particles of a lost drilling bit: Legal, 4,398; Woodbend, 1,074 feet. In the Leduc producing sector: No. 15 at 4,960; No. 16 at 4,447; No. 17 at 3,560; No. 18 at 4,428; No. 19 at 3,545; No. 20 at 475 feet.

Stony Plain No. 1 well of Canadian Gulf was being prepared for another drillstem test at 4,745 feet. A prevous test gave 100 per cent core recovery.

East Leduc-South Brazeau No. 1 is preparing to resume drilling at 4,686 feet. Atlantic No. 1 now is below 4,343 feet and nearing the Devonian contact. Central Leduc's Pyrcz No. 2 is down to 1,560 feet. Home Leduc No. 1 is below 3,300 feet. East Leduc No. 2 is preparing to resume drilling after installing a new pump.

U.K. Press Raps Plan for Lords

LONDON, Oct. 22.—(AP)— The Government's proposal to trim the little-remaining authority of the House of Lords met almost unanimous criticism today in the British press.

Only the Labor Daily Herald voiced lukewarm approval for the measure proposed at the opening of parliament yesterday, a proposal described by the Marquis of Salisbury as a "shabby and shoddy political deal" and by Winston Churchill as a "deliberate act of social aggression" that would "divide the country."

An all-out floor fight over the proposals seemed definitely in the cards and some political circles predicted a new general election would result.

Prime Minister Attlee announced in the course of preliminary debate on the proposal yesterday that the government's intention was to limit the power of the hereditary House of Lords to delay enactment of legislation from two years to one year.

An authoritative source said today the current proposals was a stop-gap measure and large-scale reform of the upper chamber would be sought later.

The cabinet's only goal was to insure that time would be available for enactment of a bill to nationalize the iron and steel industry before the labor-controlled parliament dies in 1950. He said Labor probably would make Lords' reform a key issue in the general election scheduled for that year.

Chile Cuts Off Soviet Relations

SANTIAGO, Chile, Oct. 22. —(AP)—The Chilean government announced last night that it had broken diplomatic relations with the Soviet Union and Czechoslovakia.

An official said the action was "intimately related with Communist infiltration" in Chile's southern coal zone—recently the scene of labor unrest which Chilean authorities have attributed to Communist agitation.

It was understood that the government's decision was to remove any possibility of the Communist party in Chile having contact with Moscow or the new communist international information bureau in Belgrade through diplomatic officials.

It means the ousting not only of Soviet diplomats but also the only remaining official representative of a country regarded as being in the Russian orbit.

Yugoslavia broke diplomatic relations with Chile last week because of the expulsion of two Yugoslav diplomats. Chilean authorities accused the two Yugoslavs of operating under the direction of the new Communist International Information Bureau and in fomenting labor strikes in Chile.

Workers Return

(Continued from Page 1)

of the United Packinghouse Workers' union in Toronto. It is not expected that directions from Toronto will be delayed.

Packing firm officials said Wednesday that livestock buying is being stepped up while deliveries by train and truck will be expedited.

"Some of the truckers have been on other work and it will now be necessary for them to arrange to restore their normal service," said one official.

Also, plant workers who went to other jobs also will be called in for plant work.

Jack Hampson, field secretary of the United Packinghouse Workers of America, said the Tuesday night vote was "favorable."

From the east it was reported Wednesday that the UPWA's Montreal local planned a court battle with the Quebec government to thresh out another angle of the strike—the constitutionality of a provincial labor law prohibiting workers from striking and making violation of the provincial law a penal offence.

Another development was ratification by more than 400 union members on the Vancouver-New Westminster area of settlement terms. The men are employed by Canada Packers and Burns and Co.

Five of the six Swift Canadian plants in Canada have reopened, it was reported Wednesday.

Decontrol

(Continued from Page 1)

oats and barley and removal of subsidies on feed grains likely will mean that farmers will pay more for their feed. It is expected, too, that oats and barley soon will be quoted on the Winnipeg grain exchange.

Prices board officials said the announcement meant that as from Wednesday:

1. The price ceilings will no longer apply to barley, oats or screenings when used for any purpose. Wheat, flaxseed, rapeseed and sunflower seed remain under price control.
2. Price ceilings will no longer apply to meat and meat products, other than lard and tallow.
3. The order requiring defatting of beef carcasses will remain in effect.
4. All slaughter control regulations are revoked.
5. All processing or other service charges relating to any of the items removed from control are also suspended.
6. Used bags and used bagging and baling material are also removed from price control.

THE ANNOUNCEMENT said that in order to "ensure fulfillment of Canada's overseas commitments of livestock products, and in view of the shortage of feed grain in Canada, the government reiterates its policy of allowing no exports of oats and barley during the current crop year."

This year's oats crop is estimated at 288,249,000 bushels against 400,069,000. The barley crop is estimated at 151,225,000 against 159,887,000.

The subsidies paid on grains used for livestock feeding amounted to 25 cents a bushel on wheat and barley and 10 cents a bushel on oats.

"In July the government announced that ceilings and subsidies on feed grains would be continued for as long as price ceilings remained on any important livestock products," said the announcement.

"IT HAD BEEN intended to decontrol meat prices in September, but when the principal packing plants were closed down by an industrial dispute, the government felt that it would be unwise to decontrol meats at that juncture.

"Now that it seems certain that the dispute in the packing industry has been settled, it is expected that meat supplies will rapidly return to normal and that ceilings can safely be removed."

Prices board officials declined to express any view as to whether the action was likely to cause an increase in meat prices. However, one source said there might be a rise in the prices of such things as bacon and processed and cured meats until the packing plants again catch up with demand.

The source said many cattle had to be held back on farms because of the strike and once they started to flow to market they would help to keep down prices.

THE SURPLUS of meat over domestic needs likely would be purchased by the government for shipment overseas.

Alberta Florists To Meet in City

Provincial meetings of the two national florists associations are to be held at the Macdonald Hotel on Thursday and Friday of this week.

On Thursday the Allied Florists and Growers meeting will commence at 10 a.m. Gordon Campbell of Calgary is chairman for Alberta and W. J. Steel, secretary-treasurer. Special guest speaker will be Joseph A. Whitmore of Toronto who is national executive secretary for the association. In the evening a joint banquet will be held. Florists from all parts of Alberta and Saskatchewan will attend.

Friday the Alberta Unit of the Florist Telegraph Delivery Association will hold its semi-annual meeting. E. C. Bealing, of Calgary will preside. A report of the Chicago Florist Telegrap Delivery convention will be given.

Two New Arctic Weather Stations

OTTAWA, Oct. 22.—(CP)—Canada's two new Arctic weather stations are well established and sending out reports four times a day, Reconstruction Minister Howe said yesterday in a progress report on the establishments set up this year.

The first station, on the east side of Ellesmere Island at Eureka Sound, within 600 miles of the north pole, was initiated by aircraft. The second and main station was established on Cornwallis Island at Resolute Bay near the western end of Barrow Strait, by a water-borne expedition. It is at about latitude 75 degrees north.

The U.S. icebreaker Edisto was able to reach the new station at Eureka Sound with further equipment and supplies, Mr. Howe said.

The two weather stations are the first of nine planned for various points in the Arctic in the next three years. They will be manned by Canadian and U.S. personnel.

Plane Crashes

(Continued from Page 1)

Previously it was reported seven men were filled in the crash.

WINDSOR MILLS, Que., Oct. 22. —(CP)—The pilot of a chartered amphibian plane was killed and three American passengers were seriously injured yesterday when the single-engined aircraft crashed into the dense woods 17 miles east of this Eastern Townships town.

Eugene Gagnon of Bromptville, Que., 26-year-old former RCAF pilot, died last night as he was being brought out of the woods by a rescue party.

The passengers, Maurice Frank, 30, Cumberland, Me., Edwin Thresher, 25, Freeport, Me., and Maurile Berube, Brunswick, Me., were taken to hospital at nearby Sherbrooke where their condition was reported serious.

The three Americans were on a poultry-buying expedition in Quebec province.

First word of the crash came when Berube stumbled into a camp on the limits of the Canada Pulp and Paper Company property after wandering through the woods for several hours, and told workers of the crash and that three others still were trapped in the wreckage.

Transit Strike

(Continued from Page 1)

MEANWHILE delegates to the Vancouver, New Westminster and district Trades and Labor Council (TLC) were meeting behind closed doors early today to formulate a policy regarding action of their affiliated street railwaymen's union in calling car and truck "pools" unfair.

It was decided that "any move in transportation plans where fares are charged will be termed unfair."

Yesterday the well-organized pools carried the majority of the estimated 200,000 workers, who normally depend on trams for transportation, to work in orderly, efficient fashion.

At the same time union officials said that cattle and mail would be the only freight they would "allow" moved over the interurban lines today as they sought to enforce their demands for a 20-cent hourly wage boost and 40 hour week. They rejected a company offer of a 10-cent increase with gradual reduction of the work week to 40 hours.

Tram services to New Westminster, Marpole, Steveston and Chilliwack, 75 miles east of here, were halted by the picket lines. The only service operated was a mail train to Chilliwack, making two runs a day. It was reported that the mail train was endangered yesterday when a 10-foot steel obstruction was put on the tracks. Company and union officials called it an "act of vandalism."

Motorman Frank Wolgemuth brought the train to a stop after the wheels pushed the steel rail obstruction along the tracks for 50 feet.

Car Thief Causes His Own Arrest

CALGARY, Oct. 22.—(CP)—By unwittingly speaking to a man who had his back turned to him yesterday, Donald Walter White, Pope, B.C., walked right into the arms of the law.

The man he spoke to was Detective Jim Christie who happened to be looking for White at the time. Turning around to face White upon being addressed, Christie recognized him and placed him under arrest. Police were looking for White after receiving a call from Edmonton police saying he was wanted for the theft of two cars in the Alberta capital and was believed heading for Calgary or already there. Christie recognized him from a police photo.

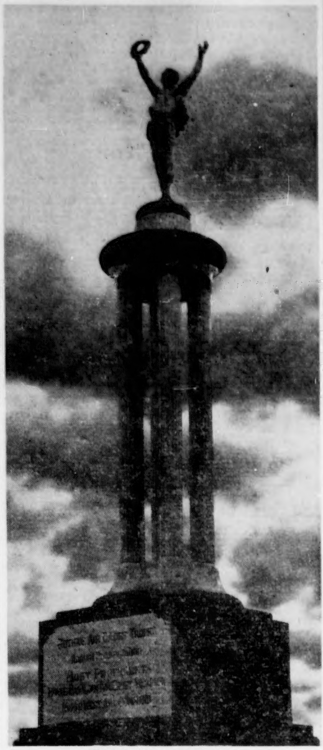
Something for Cadets to Aim At



Guthrie Air Cadet Trophy

Falconry is said to be the oldest sport in the world.

Air Cadets Get Trophies

Air Vice Marshal K. M. Guthrie, CB, CBE, air officer commanding, North West Air Command, announced today the donation of four shields and a trophy for annual competition among the Air Cadet Squadrons in Western Canada. The trophy will be awarded to the most efficient Royal Canadian Air Cadet Squadron in North West Air Command.

As North West Air Command covers over half the area of Canada, Air Vice Marshal Guthrie has also donated four shields, suitably inscribed, for annual award to the most proficient Air Cadet Squadron in each of the Western provinces. The squadrons winning the four shields will then be eligible to compete for the "Guthrie Air Cadet Trophy."

The shields will be awarded to the Cadet Squadrons after their annual inspections, at which time the squadrons will be judged by inspecting RCAF officers on their activities and efficiency for the past year. A point system has been devised whereby points are awarded to the squadrons for their work in all the different phases of their training activities. The points total 1,000 and are divided proportionately for the squadrons into drill and discipline; appearance and deportment; general efficiency; organization and administration; and the syllabus of training. These five main phases of the Air Cadet activities are then broken down still further and suitable points are awarded for airmanship; navigation and mathematics; armament; meteorology; photography; aero-engines; and numerous other subjects taught to the Air Cadets during their training.

Family Refuses Pay Rent for "Slums"

TORONTO, Oct. 22—(CP)—Mrs. Pauline Visnevsky, 55, her 19-year-old daughters, Irene and Norma, and 16-year-old son set up outdoor house-keeping on Lakeshore road Monday night after they were evicted from Stanley Barracks. They said they were out because they refused to pay rent for "slums" since April. Rats and vermin over-ran the place, said Irene and Norma.

Obviously Impractical

CCF Leader Says Free Enterprise Unworkable

FAIRVIEW, Alta., Oct. 22. —(CP)— "Obviously impractical theories of the Liberal government at Ottawa" are to blame for the current high cost of living, M. J. Coldwell, national leader of the CCF party, said here last night.

Mr. Coldwell, addressing a meeting at this village, 344 miles northwest of Edmonton, referred to a broadcast last week by Finance Minister Abbott in which Mr. Abbott was quoted as saying the government believed that in peacetime prices should be free to move up and "in order to stimulate production when demand increases and to stimulate demand when production reaches high levels."

Mr. Coldwell, in an address prepared for delivery, said a free economy broke down in this way.

"Free enterprise is an attractive theory, but it just does not work. It promises security and freedom to all, and leaves everything but profits to chance."

Canada would do well to "think twice when Liberal and Tory spokesmen admitted their preference for a system which has broken down 17 times in the last 150 years."

"When prices are free to move up and down as Mr. Abbott demands, the only ones to gain are the large corporations and the market speculators," said Mr. Coldwell.

Freedom for prices to move up and down represented freedom for "those who set prices with an eye on profits, but it meant economic slavery for consumers who are forced to buy at whatever prices the profit-seeking monoplies demand and, equally bad, it means ruination for the farmers."

Despite all that has been said, farmers want stabilized prices over a term of years and at an adequate level. The organized farmers of Western Canada throughout the years have fought against the "manipulation of the markets by grain exchange operators and the powerful packing industry."

Dissatisfaction over the Canadian-United Kingdom wheat agreement arose because the government, "in spite of all the CCF could do," allowed steel farm implement prices and other costs to rise through the removal of beneficial price controls.

Mr. Coldwell said the people of Canada must determine to plan the economy in their own interests or "accept the consequences of an economy planned for them by those whose sole concern is for their own high profits."

York-Sunbury

The election of Hon. Milton F. Gregg in York-Sunbury is in line with precedent. It does not often happen that a newly appointed minister is defeated in the bye-election at which he seeks a place in parliament.

But there were some features in the York-Sunbury contest which make Mr. Gregg's victory notable. Apparently the opposition parties thought they had a fair chance to defeat him, for they sent all their big guns into action. Mr. Bracken was there, and Mr. Coldwell, and a formidable array of their parliamentary lieutenants. They condemned the government and all its works. From housing to decontrol to the admission of Newfoundland into the Dominion, the electors heard the worst that could be said about government policies and administration, from both wings of the opposing forces.

When the debate ended the voters went to the polls and elected Mr. Gregg by a record-making majority, and a plurality more than one-third of the entire electorate. That speaks well for the calibre of the new minister, and carries its own comment as to elector-reaction to the policies and record of the government.

Mr. Gregg has still to show what he can do as an administrator, and is not widely known outside his own province. The overwhelming support given him at the polls is a declaration of confidence that he will make good, and the strongest kind of recommendation he could have to the esteem and confidence of people elsewhere.

Heroes of the Sea

The men of the U.S. coast guard cutter Bibb who rescued the passengers and crewmen of the Bermuda Sky Queen kept the finest traditions of seamanship. No higher tribute can be paid to their heroism than to simply say this.

Their valor must not be obscured by anything that may be disclosed as to how so many people came to be packed aboard the plane. The men of the Bibb had nothing to do with that. At the repeated risk of their own lives they averted a major tragedy for which other men or circumstances had set the stage.

In the Open

Brazil is breaking off diplomatic relations with Russia, and the Russian representatives in Korea are breaking off relations with the United States representatives there.

No serious consequences are imminent as the result of either rupture. But they are two more symptoms of the disintegration of international relations, two more signs of the unfortunate trend in world affairs.

To say that either of these breaks is regrettable is not the exact truth. What is regrettable is that situations arose in which the breaks were almost inevitable. Brazil believes that Moscow is interfering in South American politics, and U.S. officials believe it is trying to manipulate Korea into the Soviet orbit. Since these beliefs exist, it is better that show-downs be precipitated and the issues brought into the open.

There is no such thing as building world security by refusing to face facts and covering up suspicion. The world clearing house cannot do business by ignoring violations of the international code of honor. The League of Nations tried to do that and let matters drift until a World War ended the dream of peace.

Both the situation in South America and that in Korea will now have to be investigated by the Security Council or the General Assembly. That is, if these bodies take their Charter obligations seriously or have learned anything from the decline and fall of the League.

Don't Forget

It is trite to say that fire-arms should be handled with care. But the fact is not as generally recognized as it should be.

Up at Moffet Inlet a missionary tried to open the door of his cabin while carrying a pail of water in one hand and a rifle in the other. The rifle went off, wounding him in the head. In Alberta a man tried to club a wounded duck with a shotgun. It went off and wounded him fatally.

These were grown men. Both knew that fire-arms should be handled with care. But they took chances, with fatal results in one case, the other requiring a mercy flight the success of which is not yet assured.

When even adults grow careless, it is obvious that youths and boys should not be allowed to use guns unless the need for caution has been drilled into them. Young folks are naturally more venturesome than those who are older. For their own safety and that of other people they need to be told and shown how to handle guns before being entrusted with them.

A fire-arm is a deadly instrument. It can be just as deadly when it goes off accidentally as when the trigger is pulled deliberately. Everybody knows these things. But unfortunately, not everybody remembers them.

France Decides

French voters went sharply to the right in their municipal elections. They left no room for argument that the outcome was no more than the accidental result of contests waged on local issues. In the proportion of about seven to three they voted anti-Communist, and concentrated the anti-vote on only three parties.

General de Gaulle was not a candidate, but he was elected by write-in ballots. His party candidates were returned in forty per cent or more of the vacancies. The Socialist party of Ramadier obtained around 20 per cent, and the Popular Republican movement headed by Foreign Minister Bidault about 10 per cent. Though the Communists held or somewhat increased their popular vote, the three opposing parties among them polled seventy per cent of the ballots.

The significant fact is that the voters turned to de Gaulle for leadership in what they recognized to be a national emergency. His "rally" party was organized only six months ago. It was created for the specific purpose of saving France from Communism. And as such it has been given more support than any other. The General's victory is unequalled in recent French history. He even won in Marseilles, the "Red capital."

The outcome of the municipal elections does not, of course, change the composition of the Chamber of Deputies, in which the Communists are now the largest group. But the parliamentary elections are scheduled for May next, and can be held earlier if the Chamber should so order. There is every reason to suppose that the voters will vote nationally as they voted municipally, for it is in the Chamber, not in the municipal councils, that Soviet aggression can be turned back.

The meaning is plain. France was marked down for conquest when its Communist party was made a charter-member of the reorganized Comintern. The voters knew they had come to the hour of decision. They proclaimed that France is to remain France, free and independent, and not sink to the status of a satellite of Russia.

Austerity Garden

By F. B. WALKER

Under the pressure of austerity, the Englishman has discovered what the wise Londoner has always known that "Cheapside is the best garden."

An old home revisited showed what the changing times have done. A picture postcard garden, once a "riot" of phlox and lavender, delphiniums and foxgloves strewn with such haphazard care around the reaches of a wandering lawn, had turned weedy and useless.

The gardener was gone and the care allowed by limited time was devoted not to roses and Canterbury Bells but to onions and peas, vegetable marrow and cabbage. In the corner beyond the fruit trees where the land rose to form a natural rockery and a miniature stream roamed over the stones and down into a quiet pool, potatoes have been planted.

* * *

THE FAR SIDE under a slim poplar, whose wandering roots were the bane of old Tompkin's 70 years, was once the territory of the primose, the daffodil and the snowdrop. Today it is the private preserve of six brown hens, each with a name and each a pampered pet.

The lawn is becoming patchy and a little long; the beds which stretched for 30 yards away from the house have become the breeding ground of weeds which are slowly choking out the flowers. The rose bushes are in need of pruning and the crazy paving has heaved with the frost and the rain.

But the vegetable garden is immaculate, clear of weed and fenced with DDT against wandering pests. The fruit trees this year were heavy with apples, pears and plums; the red currants performed nobly and the raspberries produced as though they knew what was at stake.

In the larder were the results of this labor, jar after jar of preserved fruits and several rows of superb jam. The old hens, also, had made their contribution and every one agreed that they were well worth the gamble which you must make in Britain. You cannot have hens and an egg ration as well.

This was one garden but it was typical.

There is more beauty to austerity Britain in a plateful of home-grown vegetables than there is in a vase full of flowers.

* * *

SITTING IN THE TRAIN which races away through the suburbs south of London, you no longer see the miles of microscopic gardens massed with flowers. Here and there, some impractical mind has retained the old traditions. Here and there the confirmed gardener has fought off the urge of hunger and kept out utility vegetables. But he is an old reactionary.

Time as well as appetite has doomed the flowers. With only so much time and no help, the tendency is to let the beauty fade and concentrate on the useful.

So it was good again to see back home a garden cherished for its looks and not its vitamins, to see hours wasted on the watering of a lawn and seed catalogues dog-eared in the flower section and not where beans are listed.

To Send Commissions

By MAURICE WESTERN

LAKE SUCCESS: Greece and Palestine linked since antiquity were linked afresh Monday as the same issue was sharply drawn in two committees.

The question raised is momentous for the future of this world organization. It may be stated simply: Is the United Nations prepared to uphold the authority, good faith and competence of its own commissions?

The decision to send a commission of investigation to the Balkans was taken unanimously by the security council. The decision to send a special committee to Palestine was taken by majority vote but the composition of the committee should have been even more acceptable because the great powers were excluded. Each commission was asked to ascertain and record the facts. Each was to determine its own procedure to assess the information gathered and to make recommendations.

It is obvious why these decisions were taken. The assembly cannot function as an itinerant court. It cannot conduct on the spot investigations. It cannot examine hundreds of witnesses. Therefore it delegates authority and the security council does the same.

Yet the essence of Mr. Vishinsky's argument is that the findings of the Balkan commission be rejected, that the evidence be re-examined and new conclusions drawn in a precisely opposite sense. He attempted with a flood of quotations and scornful comment worthy of the Moscow trials to prove that the commissioners were both prejudiced and incompetent to assess the value of evidence before them.

* * *

GENERAL NURI AS-SAID of Iraq, argued much less violently but to the same purpose in the Palestine debate. The special committee had reported "no grounds for questioning the validity of the mandate for the reason advanced by the Arab States." He proposed that the committee "disregard all the promises made by Great Britain," set the mandate aside along with the report and "deal with the Palestine ab initio in conformity with the principles and purposes of the United Nations as laid down in our charter."

* * *

MR. VISHINSKY'S speech was a masterpiece of partisan advocacy. The whip lash of envenomed sarcasm snapped out in all directions, now at Evatt, now at Spaak, now at Johnson, now at McNeill, now at Tsaldaris. Little of it was lost on the assembly because of the extraordinary dramatic sense of the UN interpreters, who strain to reflect every modulation and even to identify themselves with every sneer.

Scornfully casting aside every argument about the legality or illegality of the Greek government, Vishinsky dismissed Greece as a country which could no longer offer even the pretence of sovereignty. Clearly his purpose was to place Britain and America in the dock.

* * *

HE WAS ALSO completely unscrupulous as he sought to turn the argument around and to prove that Greece was the tool of Anglo-American imperialists was the real war-instigator in the Balkans. He even harked back to the Paris conference recalling the Greek claims then presented against Bulgaria. What he forgot to say was that Bulgaria was a triple-dyed aggressor and that his own satellite had also made strategic claims against similar aggressors. He also omitted the important point that Greek claims had been fully matched by those of the late axis partner Bulgaria against allied and injured Greece.

Mr. Vishinsky raised the argument of sovereignty and here again the tie-in between the Balkan and Palestinian problems became evident. He argued against Spaak that the theory of sovereignty was reactionary only in the sense that it blocked the imperialist forward surge of monopoly capitalism seeking to win new markets through the suppression of peoples. This, apparently, was the justification for the obstructionist attitude of the Balkan states towards the UN commission and its subsidiary, on the same day Foreign Minister Jamali of Iraq accused the Zionists of "invoking the policy of dollar diplomacy" in Palestine. His colleague commenting on the majority report had this to say:

> "They propose to create in Palestine an administration more fantastical than anything imagined in the Arabian Nights entertainment or the fantasies of H. G. Wells."

* * *

THEY HAVE introduced a new conception of independence—they propose to create independent states with limited powers linked together under an alien control. The new Jewish state which it proposes for Palestine is of a type that has never existed in the past nor been even contemplated by the Jews themselves, gifted as they are in the realms of dreams. For the Arabs, all that is proposed is a novel and galling form of protectorate.

The Arab boycott of the special committee is also defended on the grounds that Palestinians have a "natural" right to sovereignty.

But while clearly the Arabs have drawn many weapons from the Soviet arsenal and while undoubtedly they would like the support of Slavic delegates in the general assembly, it is also evident that this touching identity of views is tactical in origin and of strictly limited duration. It is a safe assertion that the last thing the Arabs want is the spread of Soviet influence into the semi-tribal atmosphere of the Middle East.

Smiles

In the club a group of men were sitting, one of them an actor who had recently scored a great success. He had knocked around the stage for years and years without getting anywhere when the big break finally arrived. And, as a result, his head had grown to abnormal proportions.

"I'm terrific," he assured them seriously. "The entire nation is conscious of me now. Why, a tobacco concern had me down this afternoon and named a cigar after me."

"Wonderful!" yawned one of the group. "And for their sake, I certainly hope it will draw better than you did for some years!"

Jones was telling the man next door about the way his wife spent the housekeeping money at the sales, but even so he couldn't help boasting a little about the things she bought.

"Only yesterday she went to the sales and came back with a three-piece suit," said Jones.

"Pooh, that's nothing!" said his neighbor. "My wife had an argument with another woman and came home with a thirty-three piece suit!"

Grace tells me she's taking hot baths regularly to get her weight down.

"Yes, she calls it the scorched girth policy."

A young wife, wishing to announce the birth of her first child to a friend in a distant city, telegraphed:

"Isaiah 9:6." Which passage begins: "For unto us a child is born, unto us a son is given."

Her friend, unfamiliar with the Scriptures, said to her husband. "Margaret evidently has a boy who weighs nine pounds and six ounces, but why on earth did they name him Isaiah."

When the farmer had helped the airman to disentangle himself from the mess of cordage and fabric, he remarked:

"You must be very brave to come down in that parachute in a gale like this."

With a snort, the airman pulled the last rope loose from his feet.

"I didn't come down in this parachute," he said coldly; "I went up in this tent."

Willie Smith was destined to be a great violinist—at least so thought Mrs. Smith.

But one evening while Willie was practising on his fiddle, Mrs. Smith got a bit of a shock. Her husband stamped in front the garden and glared fiercely at his son.

"Why the dickens didn't you tell me that Willie was going to practice on his violin tonight?" he demanded. "I've spent half an hour oiling the gate!"

Stassen Pitfall

By ELMORE PHILPOTT

Mr. Harold Stassen is one of the leading contenders for the Republican nominations for the Presidential election of 1948. Hence, what he has just suggested about strings on loans to Europe is of the highest importance.

Stassen suggests that no more American money or credit be advanced to European countries unless those countries agree to abandon their socialization programs. Just to make sure that nobody misunderstands, Stassen illustrates his point by the British iron and steel industry. He says:

PHILPOTT

Britain must be told to lay off the nationalization of the iron and steel industry—or else lose all American economic assistance under the Marshall Plan or otherwise.

At first glance this would seem a fair enough proposition to people who do not know the facts. There is certainly no reason why US money lenders should put up money for socialist schemes to which those same money lenders would be strenuously opposed to in their own countries

But Britain has not used a single cent of American money to finance the socialization schemes applied since 1945. She does not need American money to finance the nationalization of the iron and steel industry.

* * *

THEREFORE, Britain need not, and certainly will not, agree to any such conditions as Mr. Stassen suggests. To do so would be a gross violation of responsible government in Britain. For the British people, by an overwhelming majority, elected a democratic socialist government to lay the foundations of democratic socialism in Britain. The Labor Party very clearly promised—in advance of the election—to socialize the Bank of England, the coal mines, transport, electricity, gas—and the iron and steel industry.

All but two of these things have been done already—and not one cent of US, Canadian or other outside money has been required. The old owners have been paid off in newly-issued British government bonds.

* * *

ONLY TWO MORE essential industries remain to be socialized under the election platform of 1945. They are the gas industry and iron and steel. There is no argument about gas. It will be socialized at the pending session of parliament.

But there is real argument about iron and steel.

The entire Conservative party—the whole financial rulership of Britain—all are fighting to the last ditch to prevent socialization of steel.

Hence, the socialization of steel has become the test of sincerity and of democracy in Britain.

The Tories say that the Labor party should ignore its pre-election platform—and leave steel in the hands of its present owners. The majority of the Labor MP's say, "No—this is our real test; this is what we were elected to do. We will do it."

* * *

THE BIBLE SAYS that the borrower is servant to the lender." Everybody knows that "the man who pays the piper calls the tune."

The US is well within its rights in attaching conditions to any credits advanced under the Marshall Plan or otherwise. The US can, and no doubt will, say not one cent of our money is to go to finance socialism. But the US has no moral right to go beyond the above conditions. It has no right to say, as Stassen suggests:

"We won't help you in any way unless you disregard the election platform on which you were elected—and abandon socialism, even when you use your own money to apply it."

* * *

MR. WILL CLAYTON, the number 1 US trade expert, has been quick to take issue with Stassen on this matter. He tells his countrymen that any such attempt to shake the big stick over the heads of the nations of Western Europe would fail.

Whether Mr. Stassen knows it or not, he has played right into the hands of Communist and other critics of the Marshall Plan. These will now everywhere exclaim, "we told you so."

The surest way to encourage all Europe to go "whole hog" for Communism would be to give her no other choice than between that and a status of disguised colonialism—living under dollar imperialism on conditions laid down by spokesmen for Wall street.

FALSE IMPRESSIONS

Editor, Bulletin: One of the Toronto papers has published an article which originated in the London Daily Mirror. It concerned the complaints of some former immigrants to Canada who had returned to England. One, Anthony Wilson was quoted as saying that he could not get farm work here for more than £6 a month. On investigation, it turns out that the man never applied to the national employment service of the area where he says he sought work.

As an immigrant all I can say is that anyone who cannot earn more than £6 a month in Canada must be pretty dim. Unskilled laborers make around £10 a week. Mr. Wilson need have gone no further than the nearest railway station to find work loading packages on to trains. For that his wage would have been $40 a week. There are plenty of jobs in Canada at decent wages. The trouble arises when a few disgruntled or homesick men who are not prepared to work hard start giving false impressions of this country.

It is a pity that these minority views should be the ones to find space both in English papers and those here. It makes the lot of the immigrants who have settled down in Canada difficult and I am sure unnecessary worry is caused to relatives at home in England. It is the old story of the great exception making news, while stories of men who are leading ordinary comfortable lives make poor copy.

INCREASE ALLOWANCE?

Editor, Bulletin—Removal of subsidies and rising prices have been hitting the children harder than others. Milk costs 5c a quart more which adds up to $1.50 per month for the recognized requirement for health. Butter advanced from 39c to 67c since the family allowance rates were established 2½ years ago and 24 ounces adds 42c. Increases on cereals, shoes and clothing have also greatly reduced buying power, and, unlike us old folks, the children are growing and can't make the old clothes do a few more years.

Were government subsidies not as good as that much extra family allowance? Now that they have been withdrawn and additional price increases have government approval does it not behoove the powers-that-be to do what is necessary to maintain the standard of living established by the allowance? I believe a $3 to $4 increase in monthly rates would be required to restore its purchasing power. Can we afford to lower their standards, and is it necessary or right when almost everybody else is taking betterment for granted?

BREAK FOR FARMERS

Editor, Bulletin—In response to recent letters regarding margarine, I am really surprised that those people would give the farmer credit for being smart enough to try to protect his interests, as the majority of city people look on the farmers as a bunch of hicks, not capable of thinking for themselves. If the truth was known, a man has to be pretty smart to be a successful farmer.

Of course the lumbermen, meat packers and automobile workers can strike and shoot prices up, also the price of beer, whiskies, etc., can also go up and people will buy.

But let the poor farmer have any prosperity and everybody starts to kick.

NOT FLATTERED

Editor, Bulletin—Common sense tells us if we have a formula for sale it must do what we say it will. Otherwise there is no sale.

The same is true of government systems. Yet Canada and the United States are trying to sell our systems to other nations while our own countries are being ravaged by strikes, high prices and other injustices. This situation certainly doesn't flatter our systems of government nor is a sale possible while these conditions exist.

Comeback for Mosley?

Revival of Fascism Worries Gt. Britain

By Alvin Steinkopf

LONDON, Oct. 22. — (AP) — Little disorders in the streets of London's East End, to which prancing police horses give a touch of excitement, have caused some to wonder whether the Mosley brand of Fascism is attempting to revive itself in Britain.

THE MAN WHO CAN decide whether facism or a postwar version of it shall make another bid for a following is 51-year-old Sir Oswald Mosley, an internee during the war, who now farms a little and publishes political tracts at Ramsbury, in Wiltshire.

Sunday evening political rallies on the street corners have become rowdy affairs, with agitators organizing their followers to shout in chorus and heckle in the familiar fascist way.

On several Sundays there have been well-timed cries of "bring him back—we want Mosley!"

Anti-facist elements, sensing danger, are making just as much noise and getting arrested just as often in the demonstrations which have become a frequent street scene in the crowded, bombed East End.

MOST CALM political observers have an impression that facism could become an issue in Britain if Mosley decides to emerge boldly from the semi-retirement into which he has withdrawn. It is agreed that if he were to come to London himself to address one of the street corner rallies, it would be an occasion calling for many more mounted police than are being brought out these Sunday afternoons.

Mosley's most eloquent, but not necessarily authorized spokesman, at London's rowdy street corner gatherings is 32-year-old Edward Jeffrey Hamm, a bookkeeper who heads the British League of Ex-Servicemen. He speaks fluently, has talents as a rouser of emotions.

In the opinion of some authorities and editors, the British League of Ex-Servicemen and its fascist program get attention out of all proportion to their importance because of the violent reactions of opposing groups.

Says Canada Must Retain Strength

TORONTO, Oct. 22.—(CP)—John Bracken, national leader of the Progressive Conservative party, said here Monday night in an address that "to speak as if there will never be another war is foolish and invites disaster."

Mr. Bracken, speaking at the annual convention of the Young Progressive Conservative association, said Canada must remain strong to avoid attack.

He said the danger of war lies in the clash of two ideologies, materialistic Communism and Christian democracy. He added, "we must see that our type of economy serves people better than Communism serves Russia. If we don't do this there will be no stopping the march of Communism across Europe."

Terming Canada's economy "vunerable," Mr. Bracken said this would be of no consequence if peace were assured. As matters stand, however, "we must adjust our economy so as to do the maximum trade without rendering us too insecure."

Bracken Says Two Inflation Cures

TORONTO, Oct. 22.—(CP)—John Bracken, national leader of the Progressive Conservative party, said last night that Canada is bound to face a depression "if present government policies continue on their heedless way."

Mr. Bracken, in an address at a dinner closing the annual convention of the Ontario Progressive Conservative Association, said that "the inflation which we experience today will be followed by deflation tomorrow, with loss of markets and unemployment as its inevitable consequence" if the rising spiral of prices is not checked.

The Progressive Conservative leader said there are two cures for inflation—"one is to get the scarce goods that people are seeking into production, and the other is to encourage saavings to g ointo new encourage savings to go into new projects for the development of our

Killer Takes Woman On Ride of Terror

DRACUT, Mass., Oct. 22.—(AP)—A young estranged army wife told police Monday that a gunman killed her male companion and then kidnapped her for a four-hour ride of terror during which he compelled her to ride naked beside him.

She said he raped her in repeated attacks.

Police identified the killer as Russell Davis, 23, under guard in a hospital after an attempted suicide and reported in "fair" condition.

When Davis recovers sufficiently he will be charged with murder in the slaying of Edward Pare, 32, construction worker, whose death wounds had not been determined pending an autopsy.

Kidnapped after she saw her escort, Pare, killed in a fight on a lonely road early Monday, police said, was Mrs. Marion Richards, 24, mother of two children and separated from an army sergeant now stationed in Italy.

Officers quoted the young wife as saying:

"He ordered me to take off my clothes and I pleaded with him not to. He said 'take them off or I'll cut them off.' He took off his clothes and attacked me.

"He drove on naked and he kept stopping and attacking me, nearly every five minutes. He kept saying—'the fool, he should have given me that wallet.' "

The gunman drove her to her home, Mrs. Richards said, and left her with the admonition: "keep quiet until I have a chance to get away."

Tavern Shooting Claims Two Lives

CHICAGO, Oct. 22.—(AP)—Two labor union employes were shot and fatally wounded in a tavern Monday night and police said an oil salesman was seized for questioning in connection with the slayings. A bartender, reported to have identified the gunman, told police the man fired several shots following a quarrel at the bar. The shooting was not connected with union trouble, police said.

OTTAWA, Oct. 22.—(CP)—Prime Minister Mackenzie King Tuesday announced the appointment of John V. Clyne, Vancouver lawyer, as chairman of the newly-created Canadian maritime commission.

Rain Halts Harvest

CALGARY, Oct. 22.—(CP)—About 30 per cent of all Alberta grains still remained to be harvested when a wet, general snowfall brought harvest operations to an immediate halt Monday evening. More than a week of fine dry weather came to an end when temperatures dropped sharply and the storm area which covered Washington and Montana Monday moved over Alberta and Saskatchewan. Macleod and Medicine Hat report that the harvest there is completed. Some areas, such as Nanton and Vulcan, have about 15 to 20 per cent harvesting to be done.

Communist Criticizes Coming Wedding of Princess Elizabeth

By Robert Musel

LONDON, Oct. 22. — (BUP) — Communist William Gallacher drew an angry roar from the House of Commons today by scoffing at descriptions of Princess Elizabeth's marriage as a "love match" and pointing out that the Duke of Windsor lost his throne because he fell in love.

AMID CONGRATULATIONS to the King from all other parties on the betrothal, Gallacher—one of the two Communist members of Parliament—entered a sharp dissent.

Prime Minister Clement R. Attlee had extended the good wishes of the Labor party. Winston Churchill had offered solemnly the loyalty and congratulations of the Conservatives. Clement Davies added the loyalty pledge of the Liberal party.

At that point Gallacher, a round little man who might serve as double to Harry Lauder, confirmed the apprehension of his political opponents.

He served notice that the Communists would fight an increased allowance for Elizabeth. As soon as his purpose was divined, a chorus of "shut up" and "sit down" rose from the floor.

"**I AM VERY SORRY** that I should have to talk upon what should be the intimate private affairs of a young girl of whom I know very little," he began.

"But the fact that it has been brought up in the house demonstrates that it is not a private but a public affair with certain political implications.

"We have been told in certain sections of the press that it is a question of mutual attraction—what is generally termed a love affair.

"But that is quite irrelevant, because the uncle of the young lady had a love affair and lost his job as a consequence. Don't let us forget when we hear what is going on that it was the Tory government, backed up by a huge Tory majority 10 years ago, that threw the King off the throne and sent him a wanderer over the face of the earth.

"**I CANNOT FORGET** that on the day this engagement was announced, thousands of Greek citizens—Communists, Socialists and trade unionists—were thrown into prison camps of the reactionary royalist Greek government."

Plainly uncomfortable, the speaker tried to intervene. But Gallacher, raising his voice, raced through the interruption.

"We are told this young man (Lt. Philip Mountbatten, the former Prince Philip of Greece who this year became a British citizen) has forsaken the family name and family nation, and has taken on another name and another nationality.

"But this is insignificant, because I am quite certain he has not forsaken the family fortunes."

Amid the continued angry cries from other members, Gallacher concluded:

"**I DESIRE** to disassociate myself with the motion and from the lavish expenditure in connection with this affair."

The speaker commented:

"We wish them good luck."

Rent Control Will Remain

OTTAWA, Oct. 22.—(CP)—Rent control, vital peg in the Canadian economy left untouched by the government's latest decontrol order, is expected by informed quarters here to continue until March, 1949.

The emergency powers, under which the government administers controls still remaining, expire next March 31. But it is conceded here that the government will ask the next session of parliament for a year's extension of these powers so far as they concern rental controls and any other controls the administration may deem necessary to continue such as possibly those on sugar and scarce fats and oils.

This belief stems from a recent statement by External Affairs Minister St. Laurent during the latter's absence abroad, that rent and eviction controls might be expected to outlive all others.

New Canadian Ship

HALIFAX, Oct. 22.—(CP)—The most recent addition to the Canadian navy, the destroyer Cayuga, had her trial runs off Halifax harbor yesterday. The new ship was commissioned Monday.

Man Plaintiff In B.C. Breach Promise Suit

VICTORIA, Oct. 22.—(CP)—Judgment was reserved by Mr. Justice J. O. Wilson in supreme court yesterday in the suit for damages for breach of promise to marry brought by George William Brownlee, of Koksilah, near Duncan, B.C., against Florence Elizabeth Partridge, now living in Vancouver.

Charging that Miss Partridge failed to carry out an agreement of marriage, Brownlee claims damages for loss of his standing in the community and his reputation and injury to his feelings.

The case, believed to be the first of its kind in Canada where the male principal is the plaintiff, is attracting attention in legal circles here.

Evidence heard yesterday showed that Miss Partridge had previously been employed by plaintiff as housekeeper and that subsequently the two had lived together as man and wife.

Quadruplets Born

NATCHITOCHES, La., Oct. 22.—(AP)—The birth of quadruplets, all girls, was reported in hospital here yesterday. The infants, weighing about three pounds each, were born to Eugene and Rosa May Phanor, negroes. One of the babies died shortly after birth, but the others, reported doing well, are expected to live.

Admits Hoax

TORONTO, Oct. 22.—(CP)—Two years on probation in care of the Salvation Army was the ruling in county police court Monday when Peggy Stotney, 16, was charged with creating a public mischief. Miss Stotney, who told police she had seen a murder committed in a Toronto hotel and the body dumped in the Humber river, admitted it was a hoax.

Prominent Calgary Citizen Is Dead

CALGARY, Oct. 22.—(CP)—John Alfred Tweddle, 67, prominent Calgary citizen and former city commissioner, died Monday following a lengthy illness.

During the provincial election of 1935 Mr. Tweddle was the Conservative candidate for the Cochrane provincial constituency. This was his only venture into the political field outside the civic arena.

On Nov. 23, 1937, Mr. Tweddle was appointed by city council to complete the unexpired term of the city commissioner, the late George E. Hughes.

He was elected in 1938, and re-elected in 1940 and 1942. Owing to ill-health he was forced to retire at the end of 1944, but maintained a keen interest in civic affairs.

Says Dollar Parity Almost Unworkable

NEW YORK, Oct. 22.—(CP) — The New York Herald Tribune in its Wall Street comment column today says that the official parity between the Canadian and United States dollars "is considered almost unworkable."

This is so "particularly in view of the fact that the Canadian price level has risen appreciably in the last 12 months," the paper says.

The Herald Tribune adds that the discount of 10 per cent on the Canadian dollar that has prevailed in the unofficial, free market in New York for some time "has led an increasing number of American and Canadian observers to believe . . . that 10 per cent discount is what might be called the normal level of the Canadian dollar."

"Rebecca" Author Fights Court Suit

NEW YORK, Oct. 22. — (CP) — Daphne du Maurier, British author, appeared in United States district court yesterday to defend herself against a six-year-old charge that she committed literary piracy in 1938 when she wrote the novel "Rebecca."

A suit charging plagiarism was filed in 1941 by Edwina Levin Macdonald, whose works, a short story published in 1924 and entitled "I murdered my husband," and a 1927 novel "Blind Windows," are claimed as the source of Miss du Maurier's plot in "Rebecca."

Mrs. Macdonald died last April and her son, J. Clifford Macdonald, is carrying on as plaintiff. No amount of damages has been specified.

"Rebecca," a story of murder on a Cornwall country estate, sold more than 1,500,000 copies and was made into a successful movie.

Says Meat Prices Are "Up to Buyers"

REGINA, Oct. 22.—(CP)—Agriculture Minister Gardiner, commenting on the removal of wartime price controls on meat, meat products and coarse grains, last night said prices now could go up or down depending on whatever buyers were prepared to pay. The federal cabinet member was addressing a Liberal party meeting. The removal order, announced last night in Ottawa is effective today. Mr. Gardiner said representatives of the grain trade who ask for removal of government controls on wheat marketing "should have done a better job in 1938, when they had control."

Long Prison Terms

SOFIA, Oct. 22.— (AP) —Gen. Kiril Stanchev has been sentenced to life imprisonment and 37 others to prison terms ranging from one to 15 years on conviction of plotting to form a "military union" to overthrow Bulgaria's communist-dominated government.

The guests were 12 women, who had at one time held the office of worthy matron of the chapter. A presentation to the guest was made by Mrs. C. Clements.

Plan Rummage Sale

PONOKA, Oct. 22.—St. Mary's Parish (Anglican) is sponsoring a rummage sale to be held in the basement of the Elk's hall . Oct. 25. A committee in charge is composed of members of the vestry and Women's Auxiliary groups. Proceeds will go to the general church fund.

Harvesting Nears End

HARDISTY, Oct. 22. — After more than a week of fine harvest weather there still remains about 15 per cent of the grain in this district to be threshed or combined. Due to labor shortage, most of the threshing gangs are running with only half crews. Much of the grain threshed and combined during the past week is damp.

Truck Overturns

SMOKY LAKE, Oct. 22.—Nick Semeniuk of Smoky Lake suffered minor injuries yesterday when the truck he was driving upset on the highway near town. The truck was towed into town later in the day. This particular spot was the scene of two other accidents earlier this season.

Suffers Broken Leg

HIGH PRAIRIE, Oct. 22.—Patricia Hayden suffered shock and a broken leg when a car on the main street of town jumped the curb and came up on the sidewalk, knocking her down.

The new Wheat Pool elevator started taking in grain last week. This is a great help to farmers as elevator space here has been limited. Mrs. Einor Eng, wife of the elevator agent, has arrived with her family from Grande Prairie.

Rev. E. C. Dickin and delegates to the youth convention held in Peace River returned to High Prairie on Monday, reporting a very pleasant meeting and a royal welcome from the citizens of Peace River. Those attending were Lorne Walker and the Misses Mary Randall, Doreen Trump, Eva Savill and Mary Wood.

Truck Hits Railing

HIGH PRAIRIE, Oct. 22.—What might have been a very serious accident occured at East Prairie River Bridge recently when a new truck, driven by Roland Michaud, of Dawson Creek, missed the bridge and went through the steel railing on the bridge.

The truck stopped only a few inches short of a 15 foot drop into the river bed below.

Hinton Man Dies

HINTON, Oct. 22.—Alfred Gravell, resident of Hinton died at his home here recently. A funeral service was held with Father Denoris of Grand Cashe officiating. Burial was in the cemetery here.

Special Service

HIGH PRAIRIE, Oct. 22.—A harvest Thanksgiving service was held on Sunday at the Church of the Nazarene with special songs and recitations and a sermon, "The Greatness of God" delivered by the Rev. Olive M. Thomas. The church was decorted with autumn leaves with a curtain of white, gold and green streamers, before which was grouped fruits and vegetables of the season.

Church Convention

HIGH PRAIRIE, Oct.22.—Dr. S. T. Ludwig, general secretary of the Church of the Nazarene, will be a special speaker at the zone convention to be held at the Church of the Nazarene, High Prairie on Friday.

The afternoon service will begin at 2 p.m. and the evening service at 7:30 p.m. Rev. E. Lawlor, district superintendent of churches in Alberta, and his wife will also be present. Dr. Ludwig will speak at both services and special music will be given by Mrs. E. Lawlor.

To Visit Coast

MILLET, Oct. 22.—A party was held at the home of Mrs. Emil King recently in honor of Mrs. H. N. Scott who left last week for a six months visit to the coast. The guests included members of the Birthday Club and a few neighbors.

Population Increase

ATHABASCA, Oct. 22.—The population of Athabasca has increased from 749 to 870 in the last year, it was revealed by a recent census taken by Donat Pelletier for the city council.

Regular meeting of the All Saints Women's Association (Evening Branch) was held at the home of Mrs. Colin Preece recently.

Pioneer Ponoka Resident Dies

PONKA, Oct. 22.—A funeral service was held recently for William Langham Steele, who died Oct. 14. He was 80 years old.

The Rev. R. S. Christie officiated at the service held in the United Church and burial was in the Forest Home cemetery.

Mr. Steele came to Ponoka in the pioneer days of 1900 and made his home here until the time of his death. On Oct. 28 last year. Mr. and Mrs. Steele celebrated their golden wedding anniversary.

In addition to his wife, he is survived by three daughters, Mrs. M. Graham, Ponoka; Mrs. Walter Roberts, Calgary; Mrs. George Biddle, Victoria; two sons, William of Edmonton and Donald of Winnipeg and eight grandchildren.

Pallbearers were R. German S. Bird, George Hoar, E. Martin, H. Stretch and E. Finkle.

Joint Convention Held at Vermilion

VERMILION, Oct. 22.—A joint convention of Vegreville, Vermilion and Wainwright teachers was held in the Vermilion School of Agriculture recently. About 240 teachers were in attendance.

The main addresses were given by chief superintendent of schools for Alberta, William E. Frame.

Dr. Lester Ball, Superintendent of Schools, Highland Park, Illinois, brought a refreshing slant on Educational aims and objectives.

E. C. Ansley, general secretary, ATA addressed the teachers on ATA matters.

Peace River School Damaged by Fire

PEACE RIVER, Oct. 22.—Monday morning fire broke out in the Centre Street school house and caused considerable interior damage. The fire originated in the basement and immediate evacuation was made of the pupils as well as the entire contents.

After more than an hour of hard work on the part of the volunteer fighters supplied with a strong pressure of water, the fire was put out.

It is understood school for the four rooms will be resumed in Athabasca Hall while repairs are made to the school. This is the first fire of any consequence here in a long time.

Act Questioned

The City of Boston Tuesday dropped an investigation of **Actress Martha Raye's** night club performance here when advised that she had quit the show to fly to Hollywood where her mother died yesterday. The investigation was requested by the city council after Councillor Joseph M. Scannell reported Miss Raye's performance was "risque" and "filled with double meanings." Before leaving for Hollywood, Miss Raye said she was "surprised" that the performance should be investigated when it had been found unobjectionable in other cities.

Old-Timers Group Meets at Camrose

CAMROSE, Oct. 22.—The Camrose and district old-timers held their first meeting, highlighted by a banquet and dance, at the Legion Hall recently. There were guests from Bashaw, Daysland, Bawlf and other nearby towns. In order to join the organization a person has to have lived in the Camrose and vicinity for the past 40 years. There was a turnout of 156 to the banquet and dance.

The executive for this term consists of the following: president, R. W. Campbell, vice-president, F. L. Farley; secretary-treasurer, Mrs. W. Fuller; executive, F. P. Layton, W. S. Clennin, H. Foucar, E. Hills.

Half Million For New Schools Paid

Out of $1,424,187.95 awarded in contracts for the construction of new schools in Edmonton, a total of $539,275.99 has been paid by the Edmonton public school board up to the end of September, it was announced at a meeting of the board in the Civic Block Tuesday night. With the opening of the Delton school on Monday, as announced by R. S. Sheppard, superintendent of schools, a total of three new schools are now occupied, with three more still under construction. These are Victoria Composite high, Mill Creek and Virginia Park.

Northwestern Utilities Ltd. is extending gas service to the H. A. Gray school.

Permission was granted by the board to Wilma Van Deelen teacher at Eastwood high school and Winnifred Brown, teacher at H. A. Gray high school, to travel as exchange teachers to England next year.

A letter from C. Johnson of Johnson's cafe was referred to the management committee to discuss with school officials. This letter stated that a number of Canadians of Greek descent are anxious to have their children taught Greek by their own teacher after school hours and asked the use of a classroom in a centrally located school for this purpose.

B.C. Boosts Bonus For Civil Servants

VANCOUVER, Oct. 22.—(CP)—The British Columbia government yesterday increased cost of living bonus payments for its 6,000 civil servants. Provincial Secretary George S. Pearson announced a 12½ per cent boost in wages for employes receiving $160 a month or less and payment of a $16 a month bonus to all employes receiving more than $160, effective Nov. 1. For the calculations, Mr. Pearson said the government had assumed that an annual salary of $2,000 is necessary to maintain a family under present conditions. The increase will cost the government $780,000 annually and another $120,000 will be added through a jobs classification adjustments.

Egypt Cholera Rages Unabated

CAIRO, Oct. 22.—(AP)—The public health ministry said last night 561 Egyptians died of cholera during the 24-hour period which ended Tuesday morning. This was the heaviest toll reported for any similar period since the epidemic started 28 days ago. The disease now has claimed a total of 3,055 lives. The ministry said 1,022 new cholera cases were reported Tuesday as compared with Monday's figure of 753.

It is the volatile oil present in a cedar chest which kills moth larvae.

Urges Development Of North Mining

TORONTO, Oct. 22.—(CP)—Increased development of mining in northern Canada holds the key to the country's economic progress, John Bracken, national Progressive Conservative leader, told the closing banquet of the party's Ontario Association which also heard Premier Drew assert that industrial construction in Ontario is going forward at a pace never before achieved.

The declarations, ending two days of Ontario party meetings, came before the opening today of the Ontario legislature, in which the party holds 66 of the 90 seats.

The more than 900 delegates re-elected A. D. Mckenzie of Toronto president and chose R. A. Robinson of Port Arthur first vice-president. They also:

Adopted a resolution calling for an increase in the price of gold, now $35 an ounce, by establishment of a free market or by federal government purchase for sale abroad.

Leaky Tank Stops Jail Break Try

WHITBY, Ont., Oct. 22.—(CP)—Water leaking from a toilet tank at the local county jail led to the discovery of an attempted jail-break, Governor James Sutherland said yesterday.

While inspecting one of the second-floor washrooms last Friday, he noticed water dripping from the tank and called a plumber. When the plumber arrived yesterday, he told the governor that it had been tampered with.

After removal of the tank a hole 14 inches by seven inches was discovered in the wall. The hole, which had penetrated about half the thickness of the four layers of brick, would have given the prisoners an easy escape route.

Says Father Threatened Daughter

Mother Pleads Protection Of Children in Killing

PARRY SOUND, Ont., Oct. 22.—(CP)—Fears that Clayton Cottrell would carry out a threat to "teach one of the daughters about sex," led to his shooting last July 26, his wife declared in a statement read before the jury trying her for his murder.

THE STATEMENT was admitted as evidence before an Ontario supreme court hearing yesterday after the 33-year-old mother of eight children pleaded innocent to the slaying of her 39-year-old husband in the kitchen of their small log cabin near South River, 48 miles northeast of here.

Mrs. Cottrell said in the statement that she and her husband, who was drunk, had entered in an argument "about his rights with the girls."

"**I TOLD HIM** that if he ever did that with one of the children he'd deserve the same as any other man; that he'd deserve a bullet in the head. He laughed and said: 'Don't be stupid.' "

The statement said she had gone to a nearby cabin, loaded a .22 calibre rifle with a single shot and returned to the house. Her husband was asleep and when she called him he started to get up. The statement continued. "I said, 'look' and pulled the trigger."

WITNESSES QUOTED Mrs. Cottrell as saying she killed her husband because he had molested their daughters, oldest of whom is 12. The court was told that Cottrell was a heavy drinker and frequently became "sexually insane."

Ottawa Teachers Seeking Increase

OTTAWA, Oct. 22.—(CP)—Ottawa collegiate teachers are seeking a wage increase of $300 each effective Jan. 1, it was disclosed Monday night. The increase, which Secretary Frank Patten said would affect 183 teachers and would involve an expenditure of $550,000, was asked to meet the "unprecedented high cost-of-living."

Slayer of Wife Gets 20 Years

SARNIA, Ont., Oct. 22.—(CP)—Joseph Taylor, accused of murdering his wife by beating her with a kitchen chair, was convicted today on a reduced charge of manslaughter and sentenced to 20 years imprisonment.

Mrs. Taylor died last Nov 30 a few hours after she was found unconscious in a pool of blood in the kitchen of the Taylors' small frame cabin at nearby Baxter Beach.

Taylor, who testified he drank heavily the day before his wife's death, admitted he must have been in the cabin at the time the fatal injuries were inflicted. But he swore he had no recollection of how she was beaten.

Taylor was convicted last February and sentenced to be hanged for his wife's murder. The supreme court of Canada granted a new trial.

Radar Members Pick Up "Angels"

WASHINGTON, Oct. 22.—(AP)—"Angels" are being picked up by radar, members of the International Scientific Radio Union were told Monday. "Angels" are unidentified echoes from the atmosphere which have been observed to a maximum range of about 3,000 yards above the earth's surface, said a report prepared by the United States army's signal laboratory.

Air Association Officers Named

ST. JOVITE, Que., Oct. 22.—(CP)—D. S. Ormand of Winnipeg Tuesday was elected president of the Air Industries and Transport Association of Canada at final sessions of the association's annual convention. Other officers chosen included H. C. Cotterell of Winnipeg, secretary; A. B. MacLaren of Ottawa, treasurer; C. C. Pearce of Winnipeg, director. Mr. Ormand succeeds C. H. (Punch) Dickens of Toronto, who becomes vice-president.

Discover Skeleton

VANCOUVER, Oct. 22.—(CP)—The finding of a skeleton, believed to be that of an elderly man, was reported to police here yesterday. The skeleton, which had been lying just off a path in Stanley Park, was disclosed by a man picking mushhrooms. Police said they believed it had been there from a year to 18 months.

Former Ottawa Senator

George Boucher Named Coach Olympic Squad

OTTAWA, Oct. 22. —(CP)— Hockey-wise George (Buck) Boucher, stick in hand, left a coaching session with his Ottawa Senators long enough last night to say he was "highly honored" to have been chosen coach of Canada's RCAF hockey team but made it strictly clear he was making no predictions—not yet anyway.

"Naturally I'm gonna do the best I can with the air force boys but I haven't even seen them yet—I wouldn't even know their names," said the Senator coach whose appointment to the Olympic team coaching spot was announced Tuesday by Air Marshal W. A. Curtis, chief of the air staff.

"SURE, WE'RE gonna have a hockey school — practices twice a day—nine to ten and three to four," said Boucher.

The Ottawa coach, who played the "big time" for more than 15 years, said he understood the Olympic squad would total about 17 including manager and coach, the latter his son, Cpl. Frank Boucher of the RCAF who will go to Switzerland with the team in his father's shoes.

It was obvious that Boucher was happy about that too.

He did not think he would be making final decision for the Olympic team much before Christmas since the team won't have to leave Canada much before January.

"We should have 'em well screened out by then."

BOUCHER GOT his first look at some of his Olympic prospects last night when the RCAF entry in the Ottawa City League — which his son plays centre — went into action. He figured some of these players would form a nucleus for the Olympic squad with additional players from other RCAF stations. He'll probably have about 30 players from which to pick the final squad.

Selection of "Buck" brought memories of his long career in Stanley Cup circles. He moved in company still highly respected, teaming up with such great defencemen as Sprague Cleghorn, Frank (King) Clancy and Eddie Gerard when he served for 13 years with Senators of the NHA and NHL.

Michigan Heads Football Poll

NEW YORK, Oct. 22. —(AP)— Michigan has been stamped as the No. 1 team of the United States off its fourth straight lopsided victory by sports writers participating in the weekly Associated Press college football poll.

After digesting Saturday's results that included a 49-21 Michigan romp over Northwestern, 147 of the 186 writers participating in the most extensive AP poll in history, voted first place to the Wolverines.

On the basis of 10 points for a first-place vote, nine for second and so on, Michigan had 1,799 points to 1,553 for Notre Dame who downed Nebraska, 31-0.

Other top 10 teams were: Texas, with 1,351, California, 969; Illinois, 932; Army, 806; Georgia Tech, 801; Pennsylvania, 707; Penn State, 324; Southern California, 314.

Cambridge "Gents" Win "Beer Battle"

OXFORD, England, Oct. 22 —(AP)—"Fifteen Gentlemen" of Cambridge University beat "fifteen sportsmen" of Oxford in an old time football match Tuesday for a kilderkin (16 or 18 gallons) of beer.

Cambridge won by 8 goals to 6 in a match enlivened by free beer for the contestants every 10 minutes.

The Cambridge team, dressed in every variety of 19th century costume, arrived in a hay cart. Oxford, similarly attired, had in its team two "veterans of the Zulu war" who carried a banner demanding increased government grants.

Some of New Rocks On Way

Curling Association Irons Out Problems

A few knotty problems were ironed out and the stage set for what is expected to be another successful season in the "roarin' game" when the executive of the Alberta Curling Association held its opening dinner and meeting in the Corona hotel last night.

Much of the discussion took place over the proposed sinking fund of $125 a year to take care of the expenses of the Alberta delegate to the Macdonald Briar classic and the Dominion Curling Association meeting.

THE AMOUNT was considered inadequate, particularly when the meeting would be held in Toronto, and other far-away places. It was decided to pay the expenses from the general account each year. The meeting was in favor of sending a delegate each year.

Secretary James McCool enlightened the gathering considerably on the match-rock situation. He said the Association had been given No. 1 priority on the delivery of the rocks and that half of the order, 154 pairs, had left Scotland and were heading this way via the Panama Canal. Ashdown's hardware will be asked to cable the Scottish firm regarding the whereabouts of that shipment and when the other half will arrive.

Previously it was suggested by E. H. Rivers, Granite, that payment ($3 a year) by members of the various clubs be suspended till next year, in view of the fact that a number of elderly players and those on pension may not be curling much longer.

McCool also said that according to information he had received the first shipment would be in Edmonton in time for play this fall, with the balance arriving between then and next Spring.

AS USUAL the bonspiel will commence the first Monday in February, on the adopted motion of George Laight, Edmonton Club. The draw committee will decide upon the question of having starters at each rink.

Jack McIntyre proposed that the association revert to the split draw used before the present "Winnipeg" draw, but that point, too, was left to the draw committee to deal with.

The entertainment committee was asked to explore the possibilities of having a buffet luncheon to replace the usual mid-week banquet during bonspiel week. It was agreed such an arrangement would speed up the curling, which the majority of curlers favored winding up in a week.

MORE INTER-CLUB curling was sought by E. H. Rivers. He advocated setting aside a whole week for playing of the Eaton Cup, permitting each club to enter as many rinks as it could muster. It was decided to have the matter discussed by the clubs at their semi-annual meetings.

McCool said the high school playoffs in the north would either consists of a district knockout series or a round-robin tourney here. A special meeting headed by Dr. W. H. Swift, Granite, Percy Clement, Royal, Alex Latta, Thistle, Jim Sangster, Alberta Avenue, and Bob Edwards, Edmonton, will delve into the situation shortly.

The following committees and committee chairmen were appointed:

FINANCE—Doug Brown, Royal, chairman; Bill White, Royal; Bert Robertson, Granite; George McMurray, Alberta Avenue; Tom Bones, Thistle; Cliff Lee, Edmonton.

ENTERTAINMENT — George Laight, Edmonton, chairman; Jack Sangwin, Royal; C. L. Gibbs, Alberta Avenue; Archie Stewart, Thistle; W. S. Jones, Granite.

ICE — Bob Edwards, Edmonton, chairman; Gerry Rice, Royal; J. Sangster, Alberta Avenue; W. R. Spencer, Granite; Alex Latta, Thistle.

PASS TICKETS — Bill Allan, Thistle, chairman; Penny Griffith, Royal; G. Wilson, Avenue; R. Hanson, Granite; H. S. Millar, Edmonton.

DRAW — Tom Bones, Thistle, chairman; Jack McIntyre, Royal; J. Sangster, Alberta avenue; E. H. Rivers, Granite; Charles Cairns, Edmonton; J. A. McCool, draw secretary.

Hold-Over

Right-winger **Bob Goodacre**, is the only member of last season's Canadians with the Wetaskiwin juniors this year. Goodacre played his minor hockey in Red Deer. He'll be in the lineup when Wetaskiwin Canadians meet Moose Jaw Canucks at the arena here on Thursday and Saturday nights.

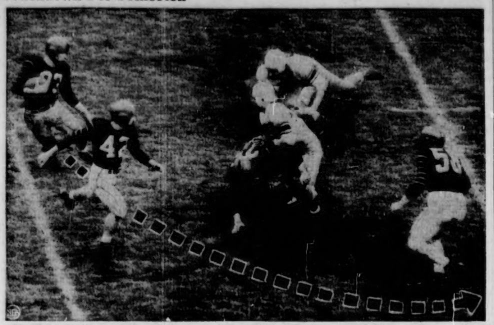
Touchdown For Princeton



Excellent interference like that above help Princeton pile up a 20-7 victory over Colgate's Raiders at Princeton this week-end. Here **George Sella**, Princeton right halfback, begins a 70-yard run (dotted line) that accounted for one of the Tiger's goals.

Canucks Playing Canadians Here Thursday Night

Coach Clarence Moher of Wetaskiwin Canadians, stated Tuesday he plans to use three lines against Moose Jaw Canucks Thursday night, the first of the two-game series which will open the junior hockey season at the arena here.

Starting time for both Thursday and Saturday games is 8:30 o'clock.

DON ROBERTSON, South Sider, will centre one trio with Ken Cook, a Trail boy, on right wing and Colin Kilburn, another South Sider, on left. Bill Dockery, Calgarian attending university, will pivot for Bob Goodacre and Vic Stasiuk. Goodacre, whose home is in Red Deer, was with Edmonton Canadians last year and Stasiuk with Lethbridge Native Sons.

A third line will be made up of Don Heathcott (Calgary), Denny Smith of the Maple Leafs and Johnny Michaluk of Canmore and a brother of Art, ex-Stampeder now with Chicago Black Hawks.

"STEW" HENDRY, sharp young goalie from Calgary will be in the nets, while the defence for Canadians Thursday will consist of Vince LeCour, Bruno Pasqualotto, Allan Purvis and Hube Lundmark.

LeCour comes from North Bay, Ont., and Pasqualotto from Trail. Both Purvis and Lundmark are out of Calgary.

MOOSE JAW Canucks again coached by Ken Doraty, former Toronto Maple Leaf, lost less than half of their regulars from last season and are expected to be very much in the running in junior competition this year also. It will be recalled Canucks went to Memorial Cup final last spring.

Included on the Canuck roster are Goalies Betker and Rayment, Vogan and Shave, and forwards Juckes Berry, Kreklewetz, Lovette, Stein, Papein and Van Buskirk.

Six-Team Senior League?

Basketball Outlook Here Appears Bright

City cage enthusiasts, 37 strong, exchanged verbal shots in an effort to clarify prospects for the game here this winter, at an organization meeting of the Edmonton Mens' Basketball League, in the McDougall room of the YMCA last night.

Ed. Tomick, president of the league, said that the men's senior circuit could possibly develope into a six-team loop. Indications are that Varsity, YMCA Toilers, RCAF, RCMP, Precision Machine and Latter Day Saints, will be the teams shooting for honors this winter.

The Golden Bears, an intermediate team, are expected to be starters in the senior league. Varsity will also enter a junior team and will probably play in the provincial play-offs, Coach Maury Van Vliet, told the meeting.

He added that the gym will be open for Friday games and the Varsity clubs prefer to have a fair share of games on their home floor.

A BIG PROBLEM still to be coped with—obtaining adequate floor space for the heavy schedule — was attacked from many angles. It was hoped that the Eastwood gym could be leased for three nights a week on which doubleheaders could be played.

Other floors, which may be obtained are RCAF and the former US Army Air Base. The members were of the opinion that basketball will be limited this year, if a good central location is not found.

A resolution, which empowers the new executive to acquire floors for three nights a week, was passed. If more accomodation is found, it will be used for practice purposes.

VAN VLIET, who is also president of the Edmonton Athletic Council, assured the meeting that the council would go to bat 100 per cent with the league, in helping to procure space. He also said his group would approach the school board in regard to the Eastwood gym.

Speaking of the women's league, Tomick said that if sufficient entries could be obtained, that circuit and the men's circuit would operate under one executive.

With only two teams, University and the Army and Navy Pats, lined up as sure starters, the picture is anything but clear. It is hoped, however that Civil Service, Mortons and Legionettes also will enter.

YMCA Hornets and Varsity are the only teams entered in the junior league. However, two more hopefuls, Navy cadets and another "Y" team, may enroll.

The election of a new slate of officers, which was to have taken place last night, will be held at the YMCA, Wednesday, Oct. 29 at 8:15 p.m. Members of the retiring executive were appointed as a nominating committee and will select candidates for the slate.

THOSE representing various clubs at the meeting included: J. C. Retallack, YMCA Hornets; D. Allan, Army and Navy Pats; V. A. Woods and Owen S. Merrill, Latter Day Saints; Dale Main and A. S. Brown, Precision Machine; V. A. Argent, G. R. Campbell and R. Chapman, YMCA Toilers, provincial junior champs; V. Bohons, Central Teens; Roy Chobotuck and A. W. Warburton, YMCA; Don Bentley, Hornets; Bill Chebry, Strathcona high school; Hugh Stanton, University high school; Ted Tadeson, RCMP; E. Douziech, St. John's College, and Clare Hollingsworth, coach of the Army and Navy Pats.

Improved

Work of **Bill Pettinger** has been one of the noticeable features of Flyer games so far this year. Bill appears to have "arrived," his play both on defence and offence showing great improvement. He set up Freddy Smitten's goal, the Flyers' second tally which made the count 2-0 in the first period last night.

One Yankee, No Dodgers

Six National Leaguers On Baseball All-Stars

NEW YORK, Oct. 22. —(AP)— Six National League players and four American Leaguers make up the 1947 major league all-star team as selected for the Associated Press by 233 baseball writers in the United States.

Strangely, the world champion New York Yankees show only one representative and Brooklyn Dodgers, national league pennant winners, did not place a single man on the team. Neither did St. Louis Cardinals nor Detroit Tigers, who finished second in their respective leagues.

NEW YORK Giants, Cleveland Indians and Boston Braves, none of whom finished better then third, placed two men a piece.

Only one member of the 1946 team, first ever selected for the Associated Press, repeated in 1947. He was Ted Williams, the slugging outfielder of the Red Sox who led the American League in batting, home runs, runs batted in, runs scored, extra base hits, total bases and bases on balls.

No player was a unanimous choice. Williams, the American League's triple crown king, drew the most support, named on 209 of the 233 ballots case. Joe DiMaggio, the Yankee centrefielder, ranked next with 207 votes.

JOHNNY MIZE of the Giants, who tied Ralph Kiner of Pittsburgh for the home run title of the major leagues with 51 round trippers, gathered third highest total of votes, 191—189 of them for first base, to win that position handily. His other two votes were for the outfield.

Kiner, the hard-hitting sophomore flychaser, received 137 votes to join Williams and DiMaggio in the outfield.

Lou Boudreau, playing manager of the Indians, ranked fourth in vote-getting with 177 for shortstop. Walker Cooper, Giant catcher, who made a fine comeback following a disappointing 1945 season, paced the receivers with 141 votes. Another comeback kid, Joe Gordon, acquired by Cleveland from the Yankees in a pre-season trade for pitcher Allie Reynolds, topped the second basemen with 113 votes.

THE SMALLEST number required by any winner went to Bob Elliot of the Braves, whose 99 votes were enough to win him third base in a hotly-contested battle with George Kell of Detroit Tigers.

Ewell Blackwell, lanky no-hit hurler of the Reds, dominated the pitchers. The majors' biggest winner polled 158 votes to only 55 for Cleveland's Bob Feller to win No. 1 berth among right-handed pitchers. Warren Spahn, the Braves' 21-game winner, gained left-handed pitching honors by polling 115 votes.

Jackie Robinson, Brooklyn's freshman first sacker, was a surprise runner-up with 33 votes.

Rocky Graziano Given Ovation

BRIDGEPORT, Conn., Oct. 22.—(AP)—The world's middleweight champion, Rocky Graziano, was introduced from the ring at a semi-professional boxing show here Monday night and was given an ovation such as few other national boxing figures ever have received in this city.

The Canadian, whose dishonorable discharge from the United States Army after serving a prison term for absence without leave was revealed recently, was the guest of promoter Pete Montesi, a double amputee of the second war, who lost a leg and an arm in the battle of the bulge.

Graziano was barred by the New York Athletic Commission many months ago for his failure to report a bribe offer in connection with a scheduled bout.

Capitals Come Back To Beat Flyers 4-3

Regina Triumphs With Pair Goals In Third Period

REGINA, Oct. 22. —(CP) — Regina Caps Tuesday night defeated Edmonton Flyers 4-3 to edge into a first-place tie with Calgary Stampeders in the Western Canadian Hockey League. Both teams now now have a record of two victories and one loss. Last night's defeat before a crowd of 2,000 fans was the second in three games for Edmonton.

Blond Ab McDougall, with less than five minutes of play remaining, smashed a 3-3 tie on assists from Jack Wilkie and Dutch Van Deelan, scoring the winning marker.

EARLIER in the period Regina's Jimmie Fairburn had tied Flyers 3-3 after Andy Clovechok had given Edmonton a momentary lead.

Flyers had copped two easy goals in the opening six minutes of play, cracking Caps' loose defensive tactics with smooth passing. Morey Rimstad scored first from close in front of Regina's goal on a pass from Andy Clovechok. Then, 2½ minutes later, Freddie Smitten took Pettinger's relay at the blue line to amble close in on Fodey before whipping it in.

WHEN EDMONTON'S Young and Maher took penalties, scoring opportunities by the dozen were lost by Regina until Brown hit pay dirt by deflecting in Gus Kyle's drive from the blue line. Kyle took a hooking penalty just as the period ended, 2-1.

Regina came back with nifty passing in the second to keep Edmonton well bottled up. Rollins was on his toes throughout, battling to keep Cap forwards at Bay. McDougall and Young began roughing up one another, were separated, and then McDougall drew a major penalty for fighting with McPherson at the period's three-quarter mark.

With two minutes to go, Fisher romped almost through the entire Flyer squad before being stopped. Back a minute later, he flip-passed from a face-off in the Edmonton corner to Bill Kyle, who popped it in, tying the score 2-2.

BOTH TEAMS playing a man short as the third period opened, Rimstad made a break from behind his blue line and passed to Clovechok who punched the rubber between Fodey's legs at the 2:37 mark. Fairburn rolled right back in less than a minute, scoring on Wilkie's rebound.

A series of wild end-to-end rushes with both teams at even strength featured the middle portion of the period but a penalty to Gordon Buttrey for cross checking Fisher set up the winning Cap tally.

Wilkie kicked the puck from the Flyer blue line to Van Deelan, who relayed to McDougall, parked in front of Rollins. McDougall's shot was good, ending scoring although Edmonton tested Fodey several times before the game finished.

REGINA—Fodey; Grinke, G. Kyle; B. Kyle, McDougall, Van Deelan; subs: Barnes, Wilkie, Fisher, Schmidt, Brown, Hauck, Fairburn, Staseson.

EDMONTON—Rollins, Young, Watt, Kreller, Smitten, Harrison; subs: Pettinger, Maher, Pringle, Clovechok, Rimstad, Buttrey, McPherson, Holmes.

Officials: Referee S. Fuller. Linemen, C. Little and G. Porter, Regina.

SUMMARY

FIRST PERIOD: 1. Edmonton, Rimstad (Clovechok) 2:33; 2. Edmonton, Smitten (Pettinger) 5:07; 3. Regina, G. Kyle, 14:32.

Penalties: Young, Maher, G. Kyle.

SECOND PERIOD: 4. Regina, W. Kyle (Fisher) 19:12.

Penalties—Kreller, McDougall (5), McPherson (5 mins).

THIRD PERIOD: 5. Edmonton, Clovechok (Rimstad) 2:37; 6. Regina, Fairburn (Wilkie) 3:34; 7. Regina, McDougall (Van Deelan, Wilkie) 19:50.

Penalty: Buttrey.

St. Louis Flyers Unbeaten at Home

ST. LOUIS, Oct. 22.—(AP)— Unbeaten in two previous home starts, St. Louis Flyers kept the record clean with a 4-1 victory over Philadelphia Rockets in an American Hockey League game last night. Hec Pozzo, Pete Backor, Don Grosso and Bus Brayshaw were the St. Louis marksmen while Kraiger scored for the losers.

Westglen Nips Varsity Hi

Sep Edges Vic 17-12 In Gridiron Battle

Gridiron action in the inter-school junior six-man rugby league tightened Tuesday afternoon, as Separate edged Victoria 17-12 and Westglen squeezed University for a 6-1 triumph, in two closely matched contests.

Making their debut in the junior division, Sep's blue and whites were forced to go all out before gaining the victory. The game, a nip and tuck affair, saw both clubs threatening on several occasions.

BRUCE DICKSON chalked up the first touchdown of the game for Vic, when he scooted around end for 65-yards, after intercepting a Sep forward pass. He also booted the oval for the extra point.

Sep tied it up minutes later, William Hukalo carrying the pigskin on a 25-yard end run for the major, while Don Flach booted the convert.

CLIFF OZZEE caught the Sep contingent napping in the third quarter and breezed over for a major. The play, a fake buck, was good for 30-yards. Dickson again booted the pigskin over the bar.

But that was all for the red and black. A completed forward throw, Flach to Bill Hortie, a four-yard buck by Hukalo, good for two touchdowns and a convert by Flach, extinguished the Vic fire and put the game on ice for Sep.

IN THE OTHER see-saw tussle, University opened the scoring in the first quarter, when Bill Leah kicked to the deadline.

Westglen evened the count a few plays later, when Perry Forrest smeared Pat Henry behind the goal line. Vance completed the scoring for Westglen in the second qaurter, by plunging through the University wall for a major score.

BOTH CLUBS were evenly matched, but the University blocking and tackling stood out.

VICTORIA—Makanura, Malkquich, Luchopich, Ozzee, Dickson, Morrison, Hauphman, Stocks, McPherson.

SEPARATE—Flach, Kinsman, Phillips, Hukalo, Barry, Mireault, Don Barry, Hortie, Belland, Breton, McDaniels, Bartier.

UNIVERSITY — Peterson, Tyner, Swan, Windwick, McGee, White, Wensell, Hartson, Davies, Wright, Leah, Higgins.

WESTGLEN — Forrest, Padolsky, Wagner, Vance, Diamond, Gordon, Williams, Barnes, Disturnal Stuart, Johnston, Henry.

Brown Outpoints Li'l Art King In Toronto Bout

TORONTO, Oct. 22.—(CP)—Joey Brown, 134½, of New Orleans outpointed Li'l Arthur King, 134, of Toronto in the feature eight-round bout last night of a boxing card at Maple Leaf Gardens before 8,500 fans.

The two negros served up a bruising scrap, with Brown taking a unanimous but close decision. Ringsiders gave Brown four rounds and King three, with one even.

KING STARTED off fast, showing better from than in his last fight here against Joey Bagnato of Toronto, but Brown came into his own midway through the bout and took much of the starch out of his opponent with sharp infighting.

Brown displayed his best form in the fourth round when he rushed out at the bell and hammered King with rights and lefts for a full 30 seconds.

Omaha Defeats Houston Huskies

HOUSTON, Tex., Oct. 22.—(CP)—Omaha Knights downed Houston Huskies, 5-3 in a rough United States Hockey League game last night. George Agar fiery huskie centre, drew a match misconduct in the closing minutes. McKay counted twice for the winners, with Forbes, Thibeault and Hickey getting the others. Dheere, Strongman and Ianarelli were the Huskie scorers.

Pep by Kayo

PORTLAND, Me., Oct. 22.—(AP)—Willie Pep, 129, world's featherweight champion, knocked out Jean Barriere, 133, of Montreal, in 2.07 of the first round of their scheduled 10-round non-title bout here last night.

Shamrocks Get Away To Fine Hockey Start

SAN FRANCISCO, Oct. 22. —(AP)— San Francisco Shamrocks, tail enders of the Pacific Coast Hockey League's southern division last year, got off to a flying start this season as they opened the new hockey year with a fast passing attack to down Oakland 3-0 in the Berkeley arena.

In the other southern division game Fresno Falcons cheered a big hometown crowd by pasting Los Angeles 6-1, while a fast skating Tacoma Rocket sextet won the northern division's opening contest by thumping the defending northern champs, Portland Eagles, 6-1, at Tacoma.

THE PORTLAND squad was shut out of the scoring until the third period when Wheeler took a double pass from Dutch Del Monte and Phil Dalgleish to escape the whitewash.

Neil Andrews paced the Tacoma attack with two goals and one assist. Hugh Callanan, Prokaski, Joe Propotic and Kalapaca got the others.

Centre Joe Evans slapped home two sparkling counters to lead the San Francisco club to victory over Oakland. Jim Richardson got the third.

In the Fresno contest Andy Barbe blasted home the lone Los Angeles marker on a three-way play with Ray Chaisson and Al Kunkel while Fresno was a man short.

Charles McCullough, right winger for the winners, scored two Fresno goals. Guy Roach, Jack Richardson, Blink Bellinger and Joe Peterson tallied the others.

Britain Will Enter Olympic Hockey Team

By Jack Sullivan

LONDON, Oct. 22. —(CP)— Britain will enter a hockey team in the 1948 winter Olympics at St. Moritz, Switzerland, it was decided Tuesday at a specially-convened meeting of the British Ice Hockey Association council.

The announcement was made by John Ahearne, secretary of the BIHA, who said that a large-scale search for amateur players will be made in England and Scotland.

BRITAIN HAS made her entry into the winter olympics provisional until Oct. 15 at the Zurich meeting of the International Ice Hockey Federation last September in hope that Canada would decide definitely whether to send a team by that date.

The special meeting was called after it was announced last Thursday that the RCAF would represent the Dominion.

With the inclusion of Britain the defending champion, there now are 10 countries entered in the games which will be staged at St. Moritz next Jan. 30 to Feb. 8. Other countries are Canada, Austria, Czechoslovakia, France, Italy, Poland, Sweden, Switzerland and the United States.

AHEARNE, ALSO general secretary of the IIHF, said that the International Federation will also sponsor a tournament from Feb. 10 to 15 at Zurich or Basel to celebrate the 40th anniversary of the founding of the Swiss hockey federation. He said the tentative plans call for the first four or five teams in the winter Olympics to participate.

Dogs were used extensively by both sides in the First World War, the French alone reporting 3,500 killed and 1,500 missing.

Gabe Patterson Leading Scorer

WINNIPEG, Oct. 22. —(CP)— Gabe Patterson of Saskatchewan Roughriders picking up nine points last Saturday against Winnipeg Blue Bombers, took over the lead in the individual scoring of the Western Inter-provincial Football League. Last week's leader, Bombers' Bob Sandberg, who held top point, dropped to second place.

Statistics compiled by the Canadian Press give Patterson, Negro import from Pittsburgh, 33 points in six games from three touchdowns, four placements, three singles and three converts. Sandberg was three points back with 30.

ALL OTHER positions remained unchanged for the week, with Billy Wusyk, Calgary Stampeders' local product, holding third place with 20 points and Dal Wardien of Calgary, formerly of the University of Illinois, fourth with 17. Don Hiney of Bombers, sidelined with a dislocated collar bone, stayed in the fifth slot with 15 points.

The leaders:

Anyway, U-190 Is Sunk

Who Sank the Submarine? Big Argument in Navy

HALIFAX, Oct. 22.—(CP)—The question of who sank the U-190 threatened to become the latest in who-dunits in this port city today after a combined naval air and sea force sent the captured German submarine to the bottom in a training exercise off Halifax Tuesday.

THE CREWLESS U-boat was towed to sea and attacked by naval rocket-firing aircraft. She remained afloat after the splashes subsided.

Then the destroyers Nootka and Haida moved in with Nootka firing a salvo from six guns.

Whether the sub had been sent down by the rockets or gunfire or whether both naval arms should be credited with an assist became a mild controversy in wardrooms.

Capt. Hugh Pullen, OBE, who commanded the exercise from Nootka's bridge, said he thought the rockets together with the gunfire "plus the submarine's old age settled the matter."

Although Iceland's climate is too severe for ordinary vegetable growth, huge garden plantations have sprung up about hot springs where even semi-tropical crops can grow.

Three Drowned, Three Are Saved

HEARST, Ont., Oct. 22.—(CP)—Three men were drowned early Monday night in the choppy waters of Lake Therese, nine miles north of here, when high winds capsized their boat 50 yards from shore. The victims: Cleophas Morin, 52, Hearst; Leger St. Martin, 20, Wakefield, Que., and Henry Boucher, 35, no known address. Three other men were saved by 21-year-old J. Seguin of Hearst, who jumped into a rowboat and helped pull the other three to safety, police said.

U.K., Dominions Plan

Common Citizenship For British Subjects

LONDON, Oct. 22. —(Reuters)— British and Dominion governments have agreed on a new form of citizenship for all citizens of British Commonwealth countries to establish a common national status throughout the Empire, it was learned last night.

IT WAS ANNOUNCED in the speech from the throne at the opening of parliament yesterday that legislation would be introduced in the House of Commons shortly to establish a common commonwealth citizenship and to amend the existing law governing the nationel status of married women.

The United Kingdom bill will confer new commonwealth citizenship on British subjects in the British Isles and non-self-governing colonies. Similar legislation is expected to be introduced in other Commonwealth parliaments.

All Commonwealth citizens will be given a form of dual nationality, it is understood, but this step will be technical.

The term "British subject" will apply only to citizens of the United Kingdom, and not to those of Canada and South Africa, who are nationals of their own countries as well.

Thus the new commonwealth citizenship will substitute for the term "British subject."

Countries like Australia and New Zealand, it is understood, will acquire their own national status.

THE DECISION TO introduce legislation governing the national status of married women, at present regulated by that of the father or husband, follows last summer's meeting of the commonwealth nationality committee which reviewed the question of injustice to women who lost their British citizenship through mixed marriages.

In Ottawa, a government official said he believed the citizenship bill would be very much similar to one passed by the Canadian parliament of 1945.

The Canadian bill provided for the establishment and recognition of Canadian citizenship and for the first time made clear in the statutes that a Canadian citizen was a British subject.

Passports and similar documents which previously bore the designation "British subject" now carry the words "Canadian citizen."

THE CANADIAN BILL also recognized the right of women to decide their own nationality. A Canadian women who marries a man of any other nationality may retain Canadian Citizenship if she wishes.

France Rules Saar With Iron Hand

By RICHARD O'REGAN

SAARBRUECKEN, Oct. 22—(AP)—The rich, tiny coal country of the Saar today is ruled by the French with an iron hand.

It is France's hope that, after the November foreign ministers' conference, the Saarland will take its place as an economic orbit, an autonomous German - speaking state.

If this is realized the inhabitants of the smoke-shrouded industrial region will win freedoms not enjoyed by other parts of Hitler's divided Third Reich, which they voted to join in 1935.

Meanwhile, the Saarlanders toe the line to strict French rule, to controls tighter than in any place in Western Germany.

The Saar's rigid rule is largely the will of a young former French general and industrialist, Gilbert Grandval, now military governor of the Saar and probable high commissioner when the Saar is separated from Germany.

SURPLUS CLOTHING

FRANKFURT Germany, Oct. 22.—(AP)—United States authorities have agreed to sell $100,000,000 worth of surplus army supplies to the Germans to clothe western Germany's miners and industrial workers, it was revealed last night.

Our Town

By JACK SCOTT

By Some Others

I don't seem to have anything much to say today. For a change, let's listen to some writers who have. Here is a bit I like from one of Ernest Hemingway's lesser-known short stories called "Big Two Hearted River." It's about a fellow looking into a stream.

"Nick looked down into the clear, brown water, colored from the pebbly bottom, and watched the trout keeping themselves steady in the current with wavering fins. As he watcehd them they changed their positions by quick angles, only to hold steady in the fast water again. Nick watched them a long time.

"He watched them holding themselves with their noses into the current, many trout in deep, fast-moving water, slightly distorted as he watched far down through the glassy convex surface of the pool, its surface pushing and swelling smooth against the resistance of the log-driven piles of the bridge.

"At the bottom of the pool were the big trout. Nick did not see them at first. Then he saw them at the bottom of the pool, big trout looking to hold themselves on the gravel bottom in a varying mist of gravel and sand, raised in spurts by the current.

"Nick looked down into the pool from the bridge. It was a hot day. A kingfisher flew up the stream. It was a long time since Nick had looked into a stream and seen trout. They were very satisfactory. As the shadow of the kingfisher moved up the stream a big trout shot upstream in a long angle, only his shadow marking the angle, then lost his shadow as he came through the surface of the water, caught the sun, and then, as he went back into the stream under the surface, his shadow seemed to float down the stream with the current, unresisting, to his post under the bridge where he tightened facing up into the current.

"Nick's heart tightened as the trout moved. He felt all the old feeling."

On Being Shy

Here is a verse I like by William Butler Yeats called "Where My Books Go.".

All the words that I utter,
And all the words that I write,
Must spread out their wings untiring,
And never rest in their flight,
Till they come where your sad, sad heart is,
And sing to you in the night,
Beyond where the waters are moving
Storm-darkened or starry bright.

And here are a couple of paragraphs from "On Being Shy" in a collection of essays by Jerome K. Jerome sent to me by a reader.

"A shy man means a lonely man—a man cut off from all companionship, all sociability. He moves about the world but does not mix with it. Between him and his fellow-men there runs ever an impassable barrier—a strong, invisible wall, that trying in vain to scale he but bruises himself against.

"He sees the pleasant face and hears the pleasant voice on the other side, but he cannot stretch his hand across to grasp another hand. He stands watching the merry groups, and he longs to speak, and to claim kindred with them. But they pass him by, chatting gaily to one another, and he cannot stay them. He tries to stay them, but his prison walls move with him and hem him in on every side.

"His soul is full of love and longing, but the world knows it not. The iron mask of shyness is riveted before his face, and the man beneath it is never seen. Genial words and heart greetings are ever rising to his lips, but they die away

Seeks Trade For France

Continuance of the unfavorable balance of trade resulting to France by her trade with Canada [illegible] mean that French purchases in this country would have to be sharply curtailed, Gerard Dubois, French commercial attache, Montreal, said here Tuesday.

He was in Edmonton conferring with provincial cabinet ministers and Edmonton business men with a view to expanding French markets here. He reported that he had held satisfactory interviews with Hon. C. E. Gerhart, minister of trade and industry, and with Hon. Lucien Maynard, KC, attorney-general, and was looking forward to conversation with C. W. Garnett, president of the Edmonton Chamber of Commerce and other business men in the city.

SUPPLY OF COAL in France is one of his country's most pressing permanent problems, he said. With no imports from England and with coal production in the Ruhr deeply cut, industries were forced to pay high prices for coal shipped from the United States. This tends to increase the cost of goods produced in France.

Under normal conditions he said, his country is able to produce sufficient wheat for her own domestic use, but this year frost and drought had cut her wheat crop to about 50 per cent of its normal yields. This means that about 100 millions of bushels will have to be imported.

Industrial production in France has climbed back to nearly 95 per cent of its pre-war level, he said, but there is a huge back-log of domestic demand for such goods as textiles and building material so that exports of those products is almost prohibited.

As a result French exports are largely luxury goods. Quality textiles, china, perfumes, silverware and tools were among the goods displayed at recent Canadian exhibitions of French goods. Wines and liquors were also listed high on the list of exports.

HE ADMITTED that the cost of these goods was high, but said this was due to costs of coal and to the comprehensive social security scheme inaugurated by the government since the end of the war.

He would not comment on the results of the recent French municipal elections in which Communists took a severe drubbing beyond saying "In 1789, the French people incorporated the words Equality, Liberty and Fraternity into their constitution. It will be found that given reasonable security, those words are still applicable to the desires of the French people."

Ask Be Consulted On C.S. Matters

Request to the provincial government that no regulations affecting the welfare of Alberta civil servants should be enacted without first consulting the Alberta Civil Servants' Association was contained in a resolution passed at the annual meeting Monday night of Branch No. 2 of the association. The resolution is to be forwarded to the convention of the association being held in Edmonton, Dec. 12 and 13.

W. C. Hales, department of lands [illegible] of Branch 2 which is the largest branch of the association in the province. William C. Elliott, department of municipal affairs was named vice-chairman and 64 members were named to the executive committee.

The branch made 16 nominations for positions on the provincial executive and selected 29 to attend the convention as representatives of the branch.

Other resolutions suggested that vacancies in the civil service should be advertised in the service first before being filled by an outsider; that retirement pensions be paid promptly, that the Public Service Pension Act be amended in regard to forfeiture of pension payments for those who remain in the government service less than six years; an increase in old age pensions and mothers' allowances; uniformity in subsistence allowances and construction of a civil service recreation centre.

23 Names Added To Voters' Lists

Twenty-three names were added to the municipal voters' lists during the court of revision which ended Tuesday evening to bring the total of electors to 75,977, the largest in the city's history.

Seven names were added Tuesday evening, and 10 at the court's sittings Monday night. The total of 23 added this year is the largest in recent history of the revision court.

As B.C. Extends Roads

Warns City May Lose In Tourist Traffic

Alberta, and the city of Edmonton in particular, is in danger of sustaining an irreparable business loss in tourist and other industries unless steps are taken to meet the highway progress now being made by British Columbia in the Peace River district, Dr. M. A. McIntyre, of the Alberta Motor Association, warned in discussion with members at a Tuesday dinner meeting in the Club Roosevelt.

UNLESS Edmontonians awaken to this fact, residents of the Peace River district from Dawson Creek onward will "turn their allegiance to Vancouver," an all-weather direct highway to which is expected to be completed by next spring at a cost of $6,000,000.

A large portion of the highway from Vancouver to Prince George is already completed and the connecting stretch from Dawson Creek is under construction.

Dr. McIntyre said he was one of the first to test out a stretch of the road 160 miles beyond Dawson Creek and over the new bridge which spans the Pine River and his impressions were that the road, scenery and plentitude of wild game could be described only as "marvelous."

"**BRITISH COLUMBIA** is doing a great job of highway building," said Dr. McIntyre. "At no point on that road is the elevation over [illegible] feet on the stretch from Prince George to Dawson Creek."

The meeting, under the chairmanship of C. H. Grant KC, was impressed by the declarations and action regarding the highway will be taken at a future meeting.

Fewer Accidents Since Safety Drive

Although traffic accidents in Edmonton for the first nine months of this year totalled 1,096 as compared to 917 during the same period last year, an immediate drop in the number of accidents was noticed following the beginning of the Edmonton Safety Council's courtesy campaign in July. This was announced today by the council.

In January of this year, 175 accidents were reported as compared to 77 in the same month of 1946. Every succeeding month up to July showed more accidents than the same month in 1946.

From July to September the net [illegible] 55. Number of fatalities this year remain the same as last year.

POLICE COURT

Given Jail Term On Drugs Charge

A chase down back lanes in the vicinity of 96 street and 107A avenue last Sept. 28 resulted in the capture of Dean Stewart, Edmonton, by two RCMP constables. In city police court Wednesday Stewart pleaded not guilty to a charge of being in possession of a drug. He was convicted by Magistrate A. I. Millar and sentenced to six months imprisonment and fined $200, or in lieu of the fine an additional three months in prison.

Constable H. M. Silver, RCMP, in company with Constable J. H. K. McInerney, RCMP, hid near the accused's home. Constable Silver said he saw the accused come out of the house about 7.45 p.m., go to a spot along the lane and pick a bottle out of the deep grass.

Both constables testified that the object in Steward's hand was a bottle. They gave chase and Stewart ran down a lane and along 107A avenue. Just before Constable McInerney caught up to the accused and apprehended him, he said he saw Stewart raise his right arm and throw the bottle into a yard along the street.

A brief search revealed the smashed bottle against the side of a house, Constable Silver said there was still some of the contents of the bottle left in the neck and heel of the broken pieces. This liquid he poured into a test tube and along with the pieces of broken bottle he took them to Dr. J. A. Kelso, provincial analyst.

Dr. Kelso, in his testimony, said the liquid brought to him contained a drug.

Gambling his wages in order to try to increase them appeared to be the root of evil which caused Peter Pylypow, Star, to issue three cheques for a total of $200 in his brother's name, according to details given in court Wednesday morning by Detective Frank Kingzett.

He pointed out that the accused, on account of his health, was only able to take a job at which he earned small wages. The gambling left him in a destitute position and so in September of this year, he passed the cheques. He was remanded until Oct. 29 for sentence. Detective Kingzett said full restitution of the $200 had been made.

British Socialists Seen Peace Link

"The socialist governments of the British Commonwealth would be a powerful influence for peace between the conflicting ideologies of America and Russian imperialism," it was contended during a panel discussion held at the regular monthly meeting of the CCF held in the IOOF hall Tuesday night.

Eight university students, under the chairmanship of Miss Jean Dixon, conducted the panel. Those taking part were: Harold Bronson, Dom Smiley, Stewart Smith, Alan Fell, Frank Lieber and John Bassie.

The speakers reviewed the policies of the socialist parties within the British Commonwealth of nations: the British Commonwealth and its part in the United Nations and the effect of American economic pressure on the British Labor government's domestic and foreign policy.

Radio Dealers Discuss Variety of Problems

Consumer credit, add-on contracts, and ficticious trade-in allowances, are current problems of merchandising slated for discussion at a meeting of the Alberta branch of the Canadian Association of Radio and Appliance Dealers, being held in the Macdonald hotel Wednesday.

HERE FOR THE meeting are: G. Langtry Bell, Vancouver, national president; Wilf Hodgins, London, Ont., president of the Ontario branch of the association; Fred R. Cavers, St. Catharines, Ont., chairman of the executive committee national association and a past president, and W. P. Clayton, Calgary, president of the provincial association.

Jack Jewell, Edmonton electric dealer and chairman of the northern division committee, was chairman of the meeting.

Politely But Firmly

Abbott Says "No" To Price Controls

OTTAWA, Oct. 22. —(CP)— A polite but firm "no" to requests that subsidies be restored and price control reimposed was all a delegation of 12 representatives of the Ottawa Consumers' League were able to get out of Finance Minister Abbott in an interview yesterday.

THE DELEGATION, headed by Mrs. Elizabeth Newman, and including nine housewives, two clergymen and a labor representative met the minister in his office and held an old-fashioned cracker barrel discussion on topics ranging from generalities to personalities.

But Mr. Abbott said the government "cannot and will not" reimpose right over-all price control, and also declined to have a session of Parliament called immediately to discuss the price situation. He saw no place in the Canadian peacetime economy for either subsidies or price control.

By the time the meeting was over, the delegates had become quite friendly, and had discussed prices and quality of foods, Mr. Abbott's $16,000 a year salary and his own standard of living.

"WE ARE ALL concerned with these rising prices, not just the consumers' associations," said Mr Abbott. But control is not nearly as simple as merely reimposing the ceilings. To have adequate control, it must be done on an over-all basis, with wages and salaries also under ceilings. Isolated control of prices is impossible."

The government, he explained, could not impose such rigid control as had been possible in wartime, and even if Parliament did this, the provinces would probably object. Export control gave the government some check on Canadian consumer costs, but domestic prices of necessity had to bear a relation to those on the world market which had been rising. The cost of living was much higher in Britain and the United States.

"WHY, RETURNING from England," he added, getting down to cases, "we had to pay $17.40 for a meal for three of us in a New York hotel."

The housewives listened with gasps as the minister described the menu.

"We had oysters, cheapest thing on the menu at 60 cents; a mixed grill, ice cream and coffee."

When the talk got round to the rising level of wages and salaries, the delegates queried, "how are you doing?"

"The cabinet hasn't had a raise in pay for 30 years," said Mr. Abbott.

PRESSED, HE SAID the Abbott family "are not living as well as when I was practising law in Montreal."

"Then you realize the difficulty of balancing a family budget with food prices going up?" asked a delegate.

"Indeed I do."

Have No Estimate Grain in Storage

WINNIPEG, Oct. 22— (CP) — Western Canada grain men said last night it was impossible to estimate how much coarse grains, especially the feed grains, oats and barley, had been withheld by prairies farmers in anticipation of the government's decontrol order, announced last night in Ottawa.

Only a check of each elevator's books would determine the amount. They said, however, that stocks held in country elevators on a purely storage basis rather than as a result of sales by farmers to the elevator companies were known to be "well above normal."

Rumors the government would decontrol coarse grains had been prevalent in Winnipeg for the last two months and the time of decontrol had been settled as simultaneously with or shortly after meat decontrol—a guess which proved correct.

Permits for export of feed grains from Canada had been suspended by the Canadian Wheat Board some time ago because of the tight domestic situation, a situation which became worse with the poor crop harvested in central Canada this year.

Most if not all available feed grains were expected to be turned into the domestic market to meet the shortage.

Seek Radio Network For West Varsities

VANCOUVER, Oct. 22.—(CP)—The founding of a radio network linking the four western universities is the major item on the agenda of the second annual conference of the Western Universities Radio Federation to be held in Saskatoon this weekend. Ernest Perrault, president of the University of British Columbia Radio Society, will leave here by air Friday to attend the conference which will also discuss the organization of an exchange service of student scripts for campus presentation. Coupled with this is a plan for the transcription of University plays and events of general interest.

Yugoslavs Return

MONTREAL, Oct. 22.—(CP)—Some 900 Yugoslaves from various parts of Canada and the United States were on their way to Montreal last night preparatory to sailing for their homeland on the Radnik, which already has transported about 1,000 of them back home on two previous trips.

Daddy Said to Wait They Did, 20 Hours

OKLAHOMA CITY, Oct. 22—(AP)—Farmer Earl Carter had his automobile stalled in the suburbs late Sunday night. He went to look for a garage—telling daughter Caroline Sue, 11, and son Jesse Don, seven, to wait in the car for him. Then he couldn't find his automobile again. Monday, 20 hours later, police re-united the frantic father with his children. They were playing beside the abandoned car, hungry, but still faithful to their instructions. "Daddy said to wait," said Caroline Sue.

Ex-Army Officer Jailed for Theft

VANCOUVER, Oct. 22.—(CP)—Despite his father's plea for leniency, Ogden B. Richardson, 30, former Canadian and Imperial Army officer yesterday was sentenced to prison for two years less one day when convicted of retaining $5,000 worth of stolen jewelry. The father, Harold Richardson of New York, blamed his son's crime on alcoholism, resulting from war wounds. The father said Richardson rose to a captaincy in the army at Halifax, later served with the British forces, and was a prisoner of war in Belgium. Magistrate Mackenzie Matheson termed the case "a painful one to decide."

Influx Expected

LONDON, Oct. 22.—(AP)—Official British sources said yesterday more than 25,000 European Jews are expected to attempt to enter Palestine from illegal ships within the next seven weeks. The Foreign Office said two vessels are in readiness at Specia, Italy, to leave soon for the Holy Land.

De Gaulle to Ask For New Elections

By LOUIS NEVIN

Paris, Oct. 22. — (AP) —Gen. Charles de Gaulle's new Rassemblement du Peuple Francais (RPF) will call for new parliamentary elections as soon as it has majority support in the National Assembly to pave the way for the general's early return to power, a party spokesman said last night.

The spokesman, Diomede Catroux, said the RPF had nearly one-third of the assembly's 618 deputies officially or unofficially pledged to support it prior to last Sunday's municipal elections in which the party scored a wide success. Catroux said De Gaulle's followers believe they now have majority support in the assembly.

Lagging returns showed De Gaulle's new party and De Gaulle-led coalitions had won 38.6 per cent of the popular vote reported so far in the municipal elections, more than any other party.

Returns from the 38,000 cities and villages participating in the Sunday election trickled in slowly due to rules which permitted voters to scratch out names from the lists of candidates and write in others.

Nearly a Coffin

SALZBURG, Austria, Oct. 22—(AP) — United States military headquarters said yesterday Ruth Slasak, 21, a Romanian refugee, locked herself in a wooden box and was shipped from Munich Saturday in a vain effort to join her United States sergeant sweetheart in Vienna. Military police heard the girl screaming for help at the German border during a routine check of baggage. She had been inside the box for six hours.

THE TECHNIQUE OF MINING COAL

Coal-mining is an arduous and dangerous employment. Coal gives off gases which the miner has good cause to learn to dread. There is carbon dioxide which the miner calls black damp, suffocating all who breathe it. There is the gas called methane, which the miner calls marsh gas. Marsh gas mixed with air, becomes explosive so that in certain gaseous mines the miner today uses an electric safety lamp.

Yet mining explosions are not the only danger of the mine. Sometimes the roof falls in. Sometimes the cages that carry the men, the coal, the tools and the materials up and down the pit shafts, go wrong. Sometimes there are accidents on the small railways that carry the coal underground. However, all over the world greater and greater care is being exercised to protect the millions of miners and those engaged around the mines in an effort to reduce accidents.

In the United States there is plenty of shallow coal left, which is easily got out. In Great Britain most of the mines are fairly deep and so it is in Germany, Belgium and many other places. In England in some places the mines are over 3000 feet deep, and as a [illegible] would take a long time to get them to their work unless the cage worked rapidly. For the same reason, the coal has to be lifted quickly. In the United States many mines are reached by tunnels into the side of a mountain or hill.

The coal-miner does not hack away at the coal in getting it. He cuts under a mass of coal for a few feet, and then breaks down the coal by driving in wedges or by using explosives. This undercutting is dangerous work, for in doing it the miner has to crouch under the cut he has made, and there is danger of his being crushed. Many machines have been invented to do the undercutting, and they are coming more and more into use. The use of explosives in bringing down coal is [illegible] in fiery mines (as gassy mines are called) and [illegible]

DOROTHY DIX *says:*

Should Break Off With Older Woman

Dear Dorothy Dix: My boy friend and I are very much in love with each other. We are both in our late twenties and could be married and live happily ever after except for a curious problem that confronts us. It is this: When he was 16 he began seeing a woman who was 11 years older than he. She advised him and helped him with his school work. During the war he proposed to her, but she put him off until peacetime and now he realizes that he never loved her but admired her for her intelligence and helpfulness. She worked her way through school and things weren't so easy for her, and that is why he hates to hurt her by telling her that he is in love with me and wants to call the whole thing off between them.

What should he do?

CONFUSED

ANSWER: There is nothing to be confused about, for the situation is perfectly plain and there is only one sensible solution to it. That is for your boy friend to do the honorable and honest thing by telling the woman the truth.

What happened is just what is always happening with young boys. Nearly every lad's first sweetheart is his teacher. It is a hangover from the mother complex. The boy feels more at ease with older women, who mother him and help him with his studies, than he does with girls of his own age. It is part of his education, but it should not be taken seriously, for a few years change the situation and the boy's fancy turns from Teacher to a little cutie in his own age class.

Eleven years, anyway, is too much difference in the ages of a husband and wife when the wife is older. It is not very likely that the older woman is in love with your boy friend, so there need be no hesitation about avoiding the tragedy it would be if he made the mistake of feeling that he was obligated to marry her when he is in love with you.

Dear Miss Dix: I am a desperate woman, so depressed I fear I will go mad. The reason I am so bored is because I have nothing to do. I am 34, married to a fine man. We live with my mother and she runs everything her way. The only way we get along with her is to let her do it, without any interference. But that leaves me with no home of my own and nothing to do. We have no children.

What can I do when I feel that life isn't worth living and the years ahead are empty?

MISERABLE

ANSWER: All idle people are miserable and the simple remedy for you is to get a job that will keep you so busy you won't have time to dwell on your feelings. If you have no need to earn money and are not trained for any occupation, the best thing you can do is to leave your mother and set up a home of your own. Nothing is more fascinating than housework if you put your interest in it. You can have a lot of fun in buying new furniture and draperies and learning how to cook.

Dear Miss Dix: We are two teen-age girls, 15 and 16, desperately in love with two men in their forties. My boy friend has three children, the eldest being 14. Tom has one baby, 10 months old. They have promised to divorce their wives and marry us.

Don't you think it is unfair of our mothers to refuse their permission to our being married immediately? Don't you think we have a right to live our lives as we see fit? Your immediate advice is needed.

TWO TEEN-AGE GIRLS

ANSWER: Your mothers are doing what they can to try to save you from making a mistake that will wreck your whole lives, for no 15 and 16 year-old-girls are ready for marriage. They are children themselves and certainly unable to cope with stepchildren of practically their own age.

A middle-aged man would soon get tired of a child wife and bundle you back to your mothers. Don't be silly.

Will Not Publish "Sweep" Results

NEW YORK, Oct. 22—(CP)—The Hospitals Trust, which conducts the Irish sweepstakes, announces that only the numbers of winning tickets on the Oct. 29 Cambridgeshire race at Newmarket, England, will be published in the case of holders outside Eire.

In the last drawing, on the Epsom Derby last June, Canadian winners were identified by names or pseudonyms and home towns. Such information will not be available at this time. Drawings on the Cambridgeshire will be held in Dublin Oct. 23 and 24.

A spokesman for the trust said reasons for the change were that Irish newspapers, short of newsprint, did not want to publish the names of non-Irish winners and that some persons objected to their names or pseudonyms being made public.

Why Grow Old?

After a day of mentally tiring labors, relaxation is to be found in physical activity. Anything will do—maybe golf, which is a favorite of Actress Marguerite Chapman.

By Josephine Lowman

Planning a well-balanced life seems to be one of the most difficult things to do. If a person has strong interests and is eager and enthusiastic, he is apt to become onesided along those lines. If he is a negative and disinterested individual he will not take the trouble to plan at all. We are likely to possess the faults which go along with our virtues, or visa versa.

The well balanced life must include exercise and rest, both mental and physical activity, work and play, service to others and service to self by indulging in personal tastes and self-development. It must have spiritual values and yet be practical. It must have gaiety and enjoyment, companionship with others and time alone.

In balancing work and mental activity against physical exercise we discover one of the most neglected, and yet most important, boons to man or woman. There is no antidote for mental and emotional strain which is half so beneficial as physical exercise. After a day at the office one does not feel like exercise but would be wonderfully refreshed if it were indulged in. You actually have to try this in order to believe it. Tension and fatigue will drop off miraculously.

What kind of exercise one should take depends on individual taste and condition. You may wish to combine play and physical exercise. If you have a badminton court in your yard this may be the answer. When this game is played expertly it is very violent exercise. The middle-aged man and woman should not indulge in it unless they have trained regularly. However, badminton doubles are not strenuous as played by the average person.

Perhaps you may prefer ping-pong, or swimming, or walking. If you are not situated so you can indulge in any of these (although walking is always available) your answer may be a few simple relaxing exercises. These are most helpful to the person who suffers from insomnia. No matter what kind of exercise you choose, do include some kind in each day. Otherwise you are overlooking a great reservoir of energy and health.

If you wish to have my exercises for relaxing, send a stamped, self-addressed envelope with your request for leaflet No. 24, "Relaxing Exercises," to Josephine Lowman in care of The Edmonton Bulletin.

Soup-Gurgling Fails As Dinner Musicale

Soup does a lot for a meal!

It provides warmth and nourishment; it whets the appetite for the main course.

But it is not meant to be an interlude of musical sounds. Many a dinner party has suffered because of the soup-gurgling of a thoughtless guest.

With holidays approaching, don't let your table manners do you wrong, let your good manners shine.

Croutons or oyster crackers may be dropped into your soup but contain any sudden urge to crumble bread, tempting though the idea may be.

Dip your soup spoon away from you, then sip from the side, not the tip of the spoon. Don't blow to cool it. Patience is a rewarding virtue at the table.

Bouillon in cups may be first sipped from the spoon and then drunk from the cup. In contrast, coffee and tea are never sipped from the spoon but always from the cup.

Your Baby and Mine

By Myrtle Meyer Eldred

One of the common problems of the child past one year of age is when he is reluctant to eat food and demands to satisfy his appetite with quantities of milk.

Quite often mothers express their contentment with this situation by saying, "Oh, I don't worry because he gets lots of milk." They should worry. Long before the first year of age the child has an increasing need for the nutrition provided by cereal, fruits, vegetables, meat, eggs and foods compounded of these. Milk is a necessary part of a good diet, but it is far from being the whole of it.

Here is a child of 14 months who wakens two or three times at night and wants an eight-ounce bottle of milk. On waking he has no desire for food. Mid-morning he wants a bottle of milk again. Then no food at noon. Mid-afternoon the same. Thus it goes all day. Milk is nourishing and satisfying. He fills up his stomach with milk and turns up his nose at solid food.

Obviously, this can't go on. He is depriving himself of the bulk and nutrition his body must have.

If the nourishment of the milk itself could be cut down he would be inspired by hunger to accept other foods. This can be done in two ways. If the milk is rich in cream, it could be skimmed. The appetiteless child profits by being given skimmed milk until such time as the appetite is revived. Though a highly rich milk is never advisable for infant or child feeding, some cream provides nutrition and vitamins which are essential. So, continue the skimmed milk only until such time as the child is able to eat and drink milk both in adequate amounts.

For the baby who wakens at night to be fed, the amount of milk per bottle should be decreased. Since the eight ounces seem necessary to him, make part of this water and the rest milk. Then by the next night make it three-fourths boiled water and one-fourth milk.

The object is to wean the child from night feeding so he will have an appetite for the good and filling foods he will get in the daytime. Skimming the milk or diluting the milk, will both serve this purpose. Then make sure the night meal is a hearty one, so there will be no hunger pangs to waken the child and inspire him to want to feast on milk.

Our leaflet No. 26, "Diet from One to Two Years," may be had by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred in care of **The Edmonton Bulletin.**

Bridge

By William E. McKenney

Here is an interesting hand that I picked up at the national tournament. It embodies the theory of a spade opening, and also a very cute false-card play.

With East bidding hearts and West supporting them, South knew that a heart opening was hopeless. He thought that nothing would be gained by opening a doubleton diamond, and he wanted to save the king of clubs for a possible trick.

That left nothing but a spade, and he selected the four-spot as a sort of "off color" opening. The queen was played from dummy and if North had put on the five a smart declarer would have made the contract. He would have cashed the ace of spades and led the third spade, dropping both of the adverse spades together. Thus he would have made five spade tricks, more than enough for his contract.

The alert North player, however, played the jack of spades on dummy's queen. Now declarer figured that South must have had five spades originally, so he decided to try to establish the club suit. He led the queen of clubs from dummy, took the finesse, and South won.

A spade was led back, and declarer was through. If he went up with dummy's ace, he would have only eleven tricks, while if he put on the eight-spot as he did, North would win with the ten and the contract was down one.

How to Make a Splendid Cough Syrup at Home

Cough medicines usually contain a large quantity of plain syrup—a good ingredient, but one which you can easily make in your own kitchen. Take 2 cups of granulated sugar and 1 cup of water, and stir a few moments until dissolved. No cooking! No trouble! (Or you can use corn syrup or liquid honey, instead of sugar syrup.)

Then get from your druggist 2½ ounces of Pinex, pour it into a 16 oz. bottle, and fill up with your syrup. This gives you 16 ounces of really splendid medicine for bad winter coughs. It makes a real saving, because it gives you four times as much cough syrup for your money. It lasts a long time, never spoils, and children love it.

This is a very effective, dependable, quick-acting cough medicine for the whole family. Quickly, you feel its penetrating effect in the air passages. It loosens the phlegm, soothes the irritated membranes and makes breathing easy. You will be delighted with its quick effect in clearing up coughs.

Pinex is a special compound of proven ingredients, in concentrated form, a well known reliable soothing agent for winter coughs. Money refunded if it doesn't please you in every way.

Pinex Is Dependable. Saves Money. Easy To Mix.

Dorcas Jean Stewart Bride At St. Stephen's Chapel

Pink and white chrysanthemums decorated St. Stephen's College Chapel Monday evening when Miss Dorcas Jean Stewart, daughter of Mr. and Mrs. W. M. Stewart became the bride of Roy L. Outhet son of Mr. and Mrs. Edward Outhet of Ottawa. The Rev. Dr. E. J. Thompson performed the ceremony, and Pat MacDonald played the wedding music.

The bride, given in marriage by her father, wore a gown of heavy white satin fashioned with a fitted bodice, cowl neckline and long lily-pointed sleeves. Her full length veil was caught to her head with a flower on each side. She wore a three-strand pearl necklace and carried a cascade bouquet of pink roses and white chrysanthemums.

Miss Beatrice Grant was maid-of honor and was frocked in a dress of apricot velvet with a bouquet of bronze chrysanthemums and a matching headdress.

Robert Epton was best man and Carl Rolf was usher.

After the ceremony a reception was held where the bride's table was centred with a three-tier wedding cake surrounded by white tulle and pink roses. Silver vases of rosebuds and tall white tapers completed the decorations. Lyle Jones proposed the toast to the bride.

Later Mr. and Mrs. Outhet left on a honeymoon trip to Calgary and Banff, the bride travelling in a two-piece gray wool dress with a wine topcoat, black accessories and a corsage of white roses. Upon their return they will take up residence in Ottawa.

Out-of-town guests at the wedding were Mr. and Mrs. T. P. Harrison of Castor.

Wauneitas Plan Prom

Silver slippers are being removed from tissue-paper wrappers, and eye-bewitching formals are being taken from the dark recesses of closets this week, as University of Alberta co-eds prepare for the major social event of the autumn calendar. The season of the Wauneita frolic is at hand.

Throughout fraternity houses and campus residences, varsity talk is at a high point as co-eds discuss their Wauneita dates. The shoe is on the other foot as tradition has it that the girls must do the bidding to the prom. It is the responsibility of Miss Co-ed to call for her date, fill out his dance program, and answer "his" requests for refreshments. Until the clock strikes "12," campus Cinderellas will be in the spotlight.

A record of 750 couples is expected to make the trek Saturday evening to the campus Drill Hall the scene of the annual pow-wow. For the occasion the hall will take on the ghostly atmosphere of a witch's lair. Ghosts, gremlins and goblins will serve as fitting symbols for the prom, Witches' War Dance.

No savory onion and leek corsages will be worn by the Wauneita's dates this year, for the executive has ruled out corsages. Instead shaggy white chrysanthemums will be the boutonniere presented to all species of males in attendance.

From 8:30 p.m. until 12 o'clock curfew, co-eds and their partners will glide to dance music. Novelty dances will add gaiety to the program. To convenience the large number of dancers, two intermissions have been planned.

Mrs. L. G. Thomas, honorary president of the Wauneita Society, Mrs. H. T. Sparby, Miss Mamie Simpson and Miss Constance McFarlane will be patronesses.

Arrangements are being handled by members of the executive which include the Misses Jean Anderson, Joan Arnold, Elaine Forbes, Elizabeth Clow, Olga Barilko, Robina Neil, Kay Willis, Enid Glauser and Barbara Davidson.

Jean Hryciuk Pledges Vows

Ukrainian Greek Orthodox Church was the scene of the wedding Saturday afternoon of Miss Jean Hryciuk, daughter of Mr. and Mrs. William Hryciuk of Claresholm, and Maurice Makowich, son of Mrs. P. Zack and the late D. Makowichuk of Edmonton. The Rev. P. Melnychuk performed the ceremony.

The bride, given in marriage by her father, wore a gown of ivory satin fashioned with a skirt terminating in a train and bodice having a yoke of net outlined in old lace and lily-point sleeves. Her net veil was floor-length and she carried a bouquet of American Beauty roses.

Bridesmaids were the Misses Ethel Hryciuk, sister of the bride, Helen Harmider and Adeline Makowichuk, sister of the bridegroom, who wore gowns alike of pink net and yellow net respectively, carnations in their hair and carried carnation bouquets.

Best man was Walter Ilkiw and ushers were Victor Makowichuk brother of the bridegroom and Alwyn Scott.

Mrs. Hryciuk chose for her daughter's wedding a powder blue dress with brown accessories and a corsage of split carnations. Mrs. Zack, mother of the bridegroom wore a two-piece black frock with white accessories and a carnation corsage.

A reception was held after the ceremony when the bride's table was centred with a three-tier wedding cake, flanked with vases of flowers. Leo Faryna proposed the toast to the bride.

Before taking up residence in Edmonton, the couple left for a honeymoon in Calgary and southern points, the bride travelling in a blue gabardine suit with brown accessories and a corsage of red roses.

St. Faith's Church Girls Are Honored

In an evening ceremony at St. Faith's Anglican church Monday the Misses Dorothy Thompson, Marie Field and Muriel Davies were presented with Girls Auxiliary rings, in recognition of their long and loyal service for the church. A highly recognized honor bestowed upon comparatively few throughout the Dominion, these three girls, in the words of the Rev. L. M. Watts, "have worked untiringly, always doing more than their share in a cheerful and commendable manner."

The presentation was made by Mrs. de Laroque, diocesan girls secretary, who expressed her feelings on such a memorable occasion by reading an excerpt on the true meaning connected with the wearing of the ring, which was designed with the traditional auxiliary blue cross with gold lettering. The presenting of these rings was made possible through the generosity of the St. Faith's senior group, the evening group and the life members.

Pan-Hellenic Group To Hold Banquet

Annual banquet of the Pan-Hellenic Association of the University of Alberta will be held in the main dining room of the Macdonald hotel Monday at 6.15 p.m. Miss Lois Hill, president, will be chairman.

Miss Mabel Patrick will say grace and Miss Hill will propose the toast to the King. Miss Mamie Simpson will reply to the toast to the University which Miss Georginia Yule will propose. Toast to Pan-Hellenic will be proposed by Miss Betty Ragg and Miss Yvonne Field will reply.

Entertainment after the banquet will be provided by members of the four women's fraternities on the campus.

Head table guests will include the Misses Mamie Simpson, Mabel Patrick, Lois Hill, Lucy Gaines, Helen McGregor, Georginia Yule, Betty Ragg, Yvonne Field and Mrs. Gordon McLaws.

It is expected that the banquet will attract many fraternity alumni. Those desiring to attend, are asked to contact their local alumni president or Miss Lois Hill.

Hospital Alumnae To Hold Bazaar

Annual bazaar of the Royal Alexandra Hospital Alumnae Association will be held in the nurses' residence Wednesday from 3 to 9 p.m.

Miss Margaret Fraser, superintendant of nurses, and Mrs. Norman Richardson, president of the association, will receive the guests. Miss Violet Chapman, past president of the association is convener of the bazaar.

In charge of the baby booth are Mrs. T. R. Clarke and Miss Ida Johnson. The Misses Eileen Forsell and Ruth Hanna are in charge of the children's wear. In charge of aprons are the Misses Jean Mackie and M. Edgar; novelties the Misses R. Bendickson and M. Moone; home cooking, the Misses C. Smith and F. Watkins.

Mrs. Stanley Boucher will be tea hostess assisted by members of the association.

Commercial Alumnae Holds Dinner Meet

Commercial High School Alumnae held its monthly meeting at the Corona hotel Monday, when during the evening the members were led in a community sing song by Don Daynes. Music was provided by Miss Mae Empey at the piano and Ray Boisvert on the piano accordian.

The evening's entertainment which was arranged by the boys included a short skit entitled "The Singing Cowboy and his Horse Whiskey," which was portrayed by Johnny Checholik as the cowboy and Don Daynes and Clarence Anderson as the horse. Fred Theiss entertained during the dinner with several humorous stories, while later in the evening Clarence Anderson gave his version of the Ink Spots.

A male quartet, consisting of Don Haynes, Clarence Anderson, Frank Kirby and Fred Theiss accompanied on the accordion by Ray Boisvert gave their rendition of several old ballads.

Frank Kirby from the 1944 graduation class was elected by the members of that year to represent them on the executive replacing Miss Pat Feather. The meeting was presided over by president Dave Elliott.

Entertainment at the November meeting will be provided by the girls. Next meeting will be held at the Corona hotel Nov. 17.

Goodwill Club Elects Officers

Mrs. Thomas Petaske was elected president by the Ukrainian Catholic Goodwill Club at a recent meeting at the Macdonald hotel. Other members of the executive elected are vice-president, Mrs. John Basarab; secretary, Mrs. Peter Gresechuk; treasurer and Red Cross convener, Mrs. John Esak.

Colonel Mewburn Pavilion committee consists of Mrs. George Wowthiw and Mrs. George Didur, Mrs. John Parayko and Mrs. Mason Strashok are the visiting committee.

PYLTONE FOR PILES

It's HERE NOW in Alberta. If you really suffer, you will appreciate the new PYLTONE treatment. This scientific formulae, compounded from special Balsams, Gums, Herbs and Plant extracts in liquid form, is taken internally (by mouth). It acts at once, directly on those internal sores, irritation and hemorrhoidal swellings. The cause of Piles is internal. PYLTONE PILE REMEDY helps nature remove that cause, restoring all inflamed membrane to its healthy state. Stubborn long-standing cases, or new ones they respond to PYLTONE. One bottle is enough to prove this, or the price refunded at once. Thousands of (letters of thanks) from former sufferers in B.C. and Eastern Canada testify to this. At your druggists now or mailed on receipt of $2.25, Pyltone Co., 1711 Ingelton Ave., Vancouver.

War Grave Sites In Excellent Condition

By Dent Hodgson

OTTAWA, Oct. 22. —(CP)— Canadian war graves in Central Europe are in an "excellent" condition and their sites have been carefully selected, Col. H. C. Osborne, secretary-general of the Canadian agency of the Imperial War Graves Commission, reported yesterday.

JUST BACK FROM a two-months visit to Europe, during which he took part in extended discussions concerning policy and inspected the graves of the second world war, Col. Osborne paid tribute to the interest shown in the Canadian graves by the people of Allied countries.

The eight main cemeteries visited included four in France, three in Holland and one in Belgium.

"Local inhabitants at many points have shown a most gratifying interest in the Canadian graves and have placed flowers on them," said Col. Osborne. "This, however is a temporary service which will be handled by the commission in due course as difficulties are overcome."

CANADIAN soldiers and airmen who fell in the Second World War are widely scattered across Europe. Largest burial ground is at Bretteville-Sur Laise, France, 10 miles south of Caen, where there are 2,873 Canadian graves.

There are 2,044 at Beny-Sur-Mer in the Caen-Falaise area where some of the war's bitterest fighting took place; 694 at Hautot-Sur-Mer, near Dieppe, 593 at Leubrighen, near Calais; 822 at Adegen, Belgium, between Bruges and Ghent; 964 at Bergen-Op-Zoom, Holland; 2,325 at Groesbeck, in the Nijmegen area, and 1,315 at Holten, between Deventer and Almelo, on high ground overlooking Germany.

ALL ARE CANADIAN grounds containing only a handful of the dead of other countries. While they contain a considerable number of RCAF graves, many Canadian airmen are buried in various places throughout Europe in [illegible] cemeteries, about 15 of which are in Germany.

Col. Osborne did not visit Italy, where the main Canadian cemeteries are Agira, Sicily, Ortona and Villa Nova [illegible]

Fined For Sunday Hockey Practice

TORONTO, Oct. 22—(CP)—The management of Icelandia, a north end artificial ice rink, yesterday was fined $50 for a breach of The [illegible] was fined $[illegible] Magistrate T. S. Elmore, in a judgment handed down yesterday found that by permitting hockey teams to practice at Icelandia on Sundays the concern had violated the Act. Last March 11 Magistrate Elmore dismissed the charge on the grounds hockey practises were a "work of necessity." [illegible] appealed and Mr. Justice Gale ruled that Sunday sports [illegible] not be considered legal on the grounds they are a "work of necessity," and directed the case be re-opened.

THE
SPIRAL
OF
SOARING
PRICES

Shows that rentals are closest to pre-war levels. Similarly, our exclusive listings show that there are sturdily built homes available at about half the cost to build them today.

For real values, the following are recommended:

EAST END
FAIRVIEW
New white siding bungalow with 3 bedrooms. Living room 21½'x13½'. Hardwood floors. An exceedingly smart kitchen. Close to public and Catholic schools. Less than 2 blocks to transportation. $4,800 cash, balance easy. Immediate possession.

GARNEAU
Large stucco home of Dutch Colonial design. 132' frontage. Garage attached. Oak floors throughout. Large rumpus room in basement. Main floor contains large living room 25'x12'. Across the hall is the dining room 10'x11', and off the living room there is a sun room 8'x12'. Good size kitchen 12'x12' with built-in features. Second floor contains five bedrooms: 20'x14'; 12'x16'; 11'x12'; 12'x14'; and 12'x14'. Thermostatically controlled gas furnace. It is seldom one gets the opportunity of acquiring a home in this district with large grounds, and definitely this home should sell very quickly. To see it is to want it. Shown by appointment only.

SOUTH SIDE
Large modern home with four bedrooms, hardwood floors; close to bus. 19 lots. The size of these lots about 42'x150'. Large chicken house. Garage. Full price $9,500 which includes chickens valued at $600. Immediate possession.

EASTWOOD
Smart clinker brick bungalow. Built a few years ago. New garage. Priced under $5,000. Immediate possession.

SOUTH SIDE
9422 98 ST.
Fully modern 5 rooms. Four lots. Garage. The way to reach this place: Get off the trolley bus at 94 Ave. and then go east. Or if you are driving, go to Connors Road, just over the railway tracks, then drive south. Priced at $4,300. Immediate possession.

SOUTH SIDE
Close to 99th St. Two new bungalows. Both stucco. One with garage, and fence. The other one no garage, but 3 bedrooms. Immediate possession of both.

HIGHLANDS
New 5-room bungalow. Right on the drive, with an excellent view of the Saskatchewan River Valley. Living room 23'x13'. Oak floors. Bedrooms 12'x12'; 10'x12'. Dining room 9'x11'. Kitchen 8'x11½'. Excellent construction. Steel beams. Provision made for 2 extra rooms in basement. 2 blocks from bus, and about the same distance from the new public school and park. Now if you are looking for a view and a new bungalow, this one at the price we are asking would definitely be hard to duplicate. Immediate possession.

SOUTH SIDE
Exceedingly large semi-bungalow with elbow room galore, as every room in this home is spacious. There are 4 bedrooms all told, 2 bathrooms, 2 car garage, air conditioned furnace and possession may be obtained the end of this week. About a block from transportation.

Building Boom On Florida Keys

MARATHON, Fla., (AP) — A feverish building boom is under way along the chain of islands forming the Florida Keys, where the most vicious hurricane on record spread death and destruction a dozen years ago.

From the mainland to Key West—a distance of some 122 miles—boat slips, fishing lodges, hotel rooms, apartments and homes are being rushed for what many predict will be the best season the Keys have had since Henry M. Flagler built his railroad through here in 1905-1912.

The railroad is gone now—washed away by the Labor Day hurricane of 1935 that killed more than 500 persons and caused property damage estimated at $6,000,000—but the fine overseas highway has taken its place and more people live on the Keys now than ever before.

New settlers are coming in all the time. Some were stationed at Miami, Key West or along the Keys during the war, liked it and stayed. Others came for the fishing and returned to make their homes. Former president Herbert Hoover comes from his California home each winter for a month or six weeks of fishing.

On Jewfish Key, about midway between Key West and Miami, the Greyhound Bus corporation has spent $100,000 in building the first post house in the south. Recently opened, it provides the only rest stop in the 160-mile run between the two cities.

When completed it will include 20 hotel rooms, a swimming pool, boat docks and other facilities for travellers. It is only a sample of what is going on all along the Keys.

On Key Vaca, 48 miles north of Key West, for example, the southern Bell Telephone and Telegraph Co., is putting final touches on a modern hurricane-proof building to house a telephone exchange.

A school building, also hurricane-proof, is bginning its second term. Money has aready been raised to build a community church.

Housing accommodations that will more than double the community's 500 population have already been completed or are now under way.

Some buildings are of concrete block or stone but others are frame.

A few "old timers" remember the 1935 hurricane but they're looking ahead, not back. And they're not worried.

"The hurricane? Oh well," they say, philosophically, "if it comes, we'll batten down and ride it out, or maybe we'll get out if it looks too bad."

Moose Jaw Man To Open 20 Safes

MOOSE JAW, Sask., (CP) — When a Moose Jaw man purchased 20 safes from surplus military supplies recently he stood to make a fair profit on the transaction—if he could get them open.

He immediately called in Louis Quellette, 55-year-old locksmith, who specializes in opening safes—legally—with nothing more dangerous than a paper and pencil.

Quellette has never tried detective-story techniques of safe-cracking—such as rubbing the fingers with sandpaper. The probable result of that, he said, would be sore fingers.

He first finds the number of dials in the lock by checking the clicks as he spins the knob. Then, using a system of combinations he has worked out, he tediously turns the knob until the lock opens. Sometimes it takes 20 minutes—sometimes 30 hours.

One of his most interesting jobs was opening a Moose Jaw police department vault that had been locked for years. He was sworn in as a special constable before he did it.

The meanest safe he ever opened took only two tries—then the door fell off.

Ancient Rifle Found In North

WINNIPEG, (CP) —Eddie Fingard, well-known boxing and football figure, returned to Winnipeg after a jaunt into the northland with a rifle believed to be 100 years old.

While working on his mining interest, 140 miles northwest of Yellowknife, a member of Fingard's party found the rifle. Human bones lying nearby pointed to the remains of a grave.

The rifle, which at one time belonged to the Hudson's Bay company, is five feet long and was made by an old English gunsmith named Parker. A copper pail and a knife were also found and Fingard intends to take his discovery to the national museum at Ottawa.

Mrs. Val Revett, of Ipswich, England, a great-grandmother, won the women's singles at the Felixstowe Open Bowls tournament.

United States Fears 'Gas' Shortage By Fall

By J. B. Wallach

NEW YORK, (NANA)— The disclosure this week that major oil producers are expecting crude shipments from the Middle East to make up deficiencies in domestic supply brought into sharp focus for the first time the prospect of a fuel-oil and gasoline shortage during the fall.

During the war, oil refineries concentrated on 100-octane gasoline for military requirements. As a consequence, the normal expansion of facilities for the production of civilian-use gasoline was fore-stalled. Since the war, the construction of additional facilities has been hampered by delays in the procurement of necessary equipment and materials.

Meanwhile, car registrations are in increasing by leaps and bounds. The consequent rise in demand for gasoline is taxing the capacities of the refineries despite the fact that they are running at capacity. New-car production this year threatens to drain further the dwindling reserves of the major oil producers, and the outlook for fall is anything but reassuring.

The situation was aggravated by strikes that tied up the refineries of two of the country's largest oil-producing firms. During these strikes, other companies' reserves were tapped to fill the strike-stopped supply lines. It is the consensus of the industry, according to reports, that heavy imports of crude are an essential need.

One leading company is said to have informed its sales agencies that no new outlets will be accepted for either kerosene or fuel oil. It also has announced that present gasoline allocations to dealers will not be increased. No limits as yet have been placed on lubricating oils which are in relatively good supply.

A spokesman for one of the largest oil companies expressed the opinion that it may be two to 2½ years before gasoline and fuel oil will return to a state of abundant supply.

Ivy From Hamburg Is Still A Nazi

LONDON, (CP)—One German in Britain who refuses to be de-Nazified is Ivy, a polar bear that began life in the Hamburg zoo and has been transferred to the London zoo.

Long ago Ivy learned to greet visitors to her cage with a Nazi salute, squatting on her haunches with her right forepaw stiffly raised. She still finds it an effective way of getting children to throw buns to her.

Farm Costs Index Rises 8.6 Points

OTTAWA, (CP)—The bureau of statistics Tuesday reported its composite index number of prices of commodities and services used by farmers, including living costs, rose from 148.5 for April to 157.1 for August. The index is computed on a base, 1935-39 equals 100, and figures are compiled every four months.

Equipment and materials advanced from 138.5 for April to 145.8, as considerable strength was shown in hardware, building materials, seed and fertilizers. Higher prices for food, fuel, clothing and household equipment moved the index for farm living costs from 136.1 to 146.5. Wage rates increased from 322.2 to 343.5, following the usual seasonal pattern, but for 1947 have averaged roughly nine percent above the 1946 level.

WINNIPEG LIVESTOCK

WINNIPEG, (CP)—Approximately 2,150 head of cattle were brought forward on the Winnipeg livestock market Wednesday from Tuesday's market.

Trade showed little change on the over-loaded market. Slaughter steers were steady for the week. Most classes of she-stock 25-50 cents lower.

Cattle 2,900; steers: choice 14.00-14.50; good 12.50-13.50; heifers, choice 12.25-12.75; good 11.00-12.00; fed calves, choice 14.00-14.50; good 13.00-13.50; cows, good 9.00-9.75; bulls, good 9.00-9.75; stocker and feeder steers, good 10.50-12.25.

Calves 565: good and choice veal 13.50-15.00.

Hogs 840: no quotations.

Sheep and lambs 310; no quotations.

TORONTO LIVESTOCK

TORONTO, (CP)—Butcher cows brought 8.50-10.50 in the only early cattle sales on the livestock market here Wednesday. Veal calves were steady at 16-16.50 for choice with plains downward to 10. Previous close on hogs was 23 for grade A. A few good lambs brought 15; no early sheep sales. Unsold from Tuesday were 1,800 head of cattle, 900 hogs and 1,100 sheep and lambs. Receipts reported Wednesday were: cattle 180, calves 140, hogs 310, sheep and lambs 20.

CHICAGO LIVESTOCK

CHICAGO, (AP) — Hogs 10,500; bulk good and choice 200-300 lb. butchers 27.25-27.50; good and choice sows under 400 lb 25.50-26.50; 400-500 lb sows 24.25-25.50.

Sheep 2,500; bulk good and choice native lambs 24.25; medium to good grade yearling wethers 18.50; good to choice 19.00-19.50.

In a bag of Canadian potatoes received at Cardiff, Wales, was a note —"Wanted, a nice wife between 40 and 50."

Resume Trading In Oats, Barley

WINNIPEG, (CP) — Trading in oats and barley, suspended on the Winnipeg grain exchange in September, 1943, will be resumed Thursday, President Stanley N. Jones of the grain exchange announced Wednesday.

The resumption follows upon the federal government's decontrol of coarse grains, announced at Ottawa by Finance Minister Abbott and Agriculture Minister Gardiner.

Trading in rye—the only grain hitherto unaffected by controls—was halted briefly during Wednesday's session of the exchange to permit Mr. Jones to read his 600-word announcement from the "pit" or trading floor. Spectators' galleries were packed in anticipation.

Prices Unknown

Both cash and futures markets—that is, transactions for quantities of Oats or Barley for immediate delivery to the purchaser or for delivery in some future, specified month, will be active Thursday in the long-disused coarse grains pit of the 10-storey building. There was no indication what might be the opening prices and grain men said it would be impossible to say until the session actually opened.

The ceiling price on oats has been 65 cents a bushel and on barley 93 cents.

Mr. Jones said the exchange "faces a grave responsibility in providing marketing facilities for these grains after more than six years of price control, a period during which price ceiling restrictions have prevented the market from registering true value in relation to world supply and demand.

"This task is made difficult because the market will be deprived of the advantages of export demand."

(The government's relaxation of control did not apply to export of oats or barley which remains prohibited.)

No Preparation

"The exchange has accepted this responsibility of providing facilities to market the oats and barley crops . . . in the season of heavy deliveries (from farms to elevators) without a backlog of orders accumulated through many months of trading, without the benefit of competitive appraisal of values and particularly without the benefit of export demand."

Mr. Jones said that no daily fluctuation limits on oats or barley will be imposed until the open market has had time to adjust itself. Trading will be in cash barley and oats and in December, May and July futures contracts.

Grain Prices

EDMONTON GRAIN

Street prices for grain at Edmonton as provided by the National Grain Company:

Wheat at board rate, basis 1.20 for No. 1 northern

OCTOBER 22

Rye: 2 C.W. 3.66½; 3 C.W. 3.61½; 4 C.W. 3.50; ergoty 3.28.

No prices on oats or barley were issued Wednesday but feed grains received on storage basis until prices are settled.

WINNIPEG GRAIN

WINNIPEG, (CP) — The United Kingdom was allocated 270,000 bushels of wheat under the Canadian wheat agreement in export business reported on the Winnipeg grain exchange Wednesday.

Rye futures prices showed a declining trend, dropping the full 10-cent limit. Selling, prompted by weaknesses at the Chicago market, and lack of offerings contributed to the declines during the moderately active sessions.

At the close October was 10 cents lower at $3.97¼ an; December was 10 cents lower at $3.89⅝ asked; May was 10 cents lower at $3.71¼ asked; July was 10 cents lower at $3.46⅝ asked.

Cash prices: Rye: 1 and 2 C. W. 3.94¼n; Oats remained at the new ceiling prices of 65 cents; Barley remained at the new ceiling price of 93 cents.

CHICAGO GRAIN

CHICAGO, (AP) — After selling off several cents during the early trading, wheat staged a rally late in the session on the board of trade Wednesday.

Wheat closed ¼ to 3 cents higher, December 3.11¾-½; corn was ¼-1¼ lower, Dec. 2.32¾-2.33, oats were ⅜-¾ higher, Dec. 1.22¼-⅛, and soybeans were 1¾-5¾ lower, Nov. 3.57-3.58.

BUTTER EXCHANGE

MONTREAL, (CP) — Canadian commodity exchange: spot butter, Que (92 score) 56¾-57. Sales: 150 boxes Que 92 score at 56¾, 200 boxes Que 92 score at 56¾.

Objects of particular interest at the Royal Netherlands Industries Fair, held at Utrecht this year—where the United States had the largest number of exhibitors next to England's 268—were building and road-making materials, machinery, textiles, electrical and leather products, foodstuffs and toys.

Ceylon will have government control of essential foodstuffs to alleviate continuation of world food shortages.

Tone Is Weaker On Calgary Oils

CALGARY.—The trend in oil stocks showed some weakness in Wednesday trading after two dull days with only fractional changes. East Leduc was off 1½ at 20½ and Leduc West a half point softer at 49½. Superior down two at 22. Other changes were less than a point.

Sales and close at Calgary: 1,000 Central Leduc .15¾; East Leduc: 200 Leduc Con .15½; 7,500 Leduc West .49½; 3,100 Globe .50; 2,000 Calmont Leduc .15.

Total sales at Calgary: 101,480.

TORONTO.—Changes were irregular in trend Wednesday with Roxana again active and five points better at .60. Anglo up two at 1.40 while Globe sold down one at .49 and Okalta a half at .75½.

Close at Toronto: Anglo 1.40; Globe .49; Home 4.00; Leduc West .49b; Okalta .75½.

Floods from the rivers Muhuri and Peni in East Bengal have left more than 100,000 people destitute.

J. P. HOWARD

The Directors of the Royal Agricultural Winter Fair announce the appointment of J. P. Howard as Publicity Manager. Mr. Howard spent three years of his overseas service with the Canadian Army in the Public Relations Branch in England and Italy. In 1945-46 he acted as the Public Relations Officer to the Khaki University of Canada in England.
